VICTORIA, B. C., WEDNESDAY, AUGUST 4, 1909

The alienist's reply was that he did not like to give an opinion on the sub-

The allenists today derivered incoopinions of Thaw ir answer to Jerome's hypothetical question, only a
small part of which was read. It dealt
mainly with Thaw's family history and
his early life. The state's allenists
will probably occupy the centre of the
stage for two days more.

The alienists today delivered their

Teachers' Salaries Too Low Toronto, Aug. 3.—Hon. Dr. Pyne, minister of education says the school inspectors report that teachers can-not be got anywhere in Ontario at sal-aries of \$400 per year. Railway Agreement Aug. 3.—The Grand Trunk

Conciliation at Hillcrest. Onclination at Hillcrest.
Ottawa, Aug. 3.—The labor department has received the report of the joint committee in the Hillcrest dispute. It is satisfactory to both sides, and stands for industrial peace in British Columbia coal-yards for a period.

Pretender is Moderate

Alfonso, Don Jaime gave out an interview here today. The pretender declared that the only conditions under which he would enter Spain at the head of an army would be in the event that Alfonso was overthrown and a leader was needed to restore order.

conciliation board made public a week or so ago.

Springhill conditions are different from Cape Breton in this, that there are no P. W. A. men there. The men belong exclusively to the United Mine Workers, and if they go out the mines will be compelled to shut down.

The conciliation board made a recommendation with respect to docks and fines that the men would be distanced from the system that prevails at present. The docking for stone is more rigorously imposed than it was before the last strike. In this respect the men came out of the battle worse than they went into it, so that they would be willing to accept the recommendations of the board, but recommended by the board, and this the men want. If they strike that will be their great issue.

The company has asserted that recognition of the U. M. W. will never be granted, and thus the matter stands between the two opposing forces. A mass meeting of the men of the United Mine Workers was held tonight. None but those having the password of the U. M. W. were admitted.

MR. ROOSEVELT GUEST

MR. ROOSEVELT GUEST

Ex-President and His Son Ban-quetted and Presented With Unique Gifts

chain.

The American residents of the protectorate presented Mr. Roosevelt with a tobacco box made of the hoof of a rhinoceros, silver mounted, the skull of a rhinoceros also mounted in silver and a buffalo head.

Mr. Roosevelt in reply to the toast by Governor Jacksen, said: "I wish to take this opportunity of thanking the people of British East Africa for their generous and courteous hospitality. I have had a thorough good time. I am immensely interested in the country and its possibilities as an abode for white men. Very large tracts are fit for a fine population and healthy prosperous settlements, and it would be a calamity to neglect them. But the settlers must be of the right type.

"I believe that one of the best feats performed by members of the white race in the last ten years is the building of the Uganda railroad. I am convinced that this country has a great agricultural and industrial future, and it is the most attractive playground in the world. It most certainly presents excellent opening for capitalists, and an ample opportunity should be offered them to come here. And remember that righteousness and our real ultimate self-interests demand that the blacks be treated justly. I have no patience with sentimentalists, and think that sentimentality does greater thar righteousness and our real ultimate self-interests demand than the blacks be treated justly. I have no patience with sentimentalists, and think that sentimentality does greater harm to individuals than brutality. Therefore I believe in helping the missionary, of whatever creed, who is iaboring sincerely and disinterestedly and with practical good sense.

"It is natural that I should have a peculiar sympathy for the settlers. They remind me of the men in our west, with whom I worked and with whose aspirations I so deeply sympathize."

BAD OUTLOOK

With Throat Cut
Toronto, Aug. 3.—Samuel Reilly is in
the general hospital and will likely die as a result of having cut his throat while on a big tear.

Stockholm, Aug. 3.—Soldiers are being quartered in different sections of the city and suburbs, and the entire standing army of Sweden is ready for

eventualities.

The strike situation has suddenly taken so serious a turn that King Gustave has summoned the members of parliament to Stockholm, and a special session of the rigsdag is expected.

Great consternation prevails in the

TALK STRKF

Men at Springhill, N. S., Mines

Now Considering Their

Grievances

Hallfax, N. S., Avg. 3.—The miners
of springfield are seriously talking of a strike, following the report of the concillation board made public a week or so ago.

Springhill conditions are different shake are closed and carefully sugurded.

All the ferries running out of Stock-holm have ceased operations, and the large steamers engaged in the summer in carrying visitors and residents to the seaside resorts in the archipelago have suddenly stopped running, are discharging their crews and are being field up for the winter. This summer traffic is usually continued until the month of October.

It is expected that the present total of about 100,000 idle workers will be largely increased by tomorrow. It is anticipated that the cab and street car services in Stockholm will stop running on Wednesday, and arrangements are being made to run the waterworks and the electric light plants by soldlers.

The bridges leading to the istands adjacent to Stockholm are closely according to the resonance of the bridges leading to the istands adjacent to Stockholm will stop running on Wednesday, and arrangements are being made to run the waterworks and the electric light plants by soldlers.

The bridges leading to the istands adjacent to Stockholm are closely according to the strategy of the process of th

prohibited in both shops and restaurants.

The labor conflict that is at the bottom of this trouble originated in a dispute over wages in the woolen and cotton industries. In the beginning 13,000 men were locked out, and other industries since have become involved until yesterday the employers' federation declared a lockout of iron foundry hands, numbering about 30,000 men. A total of \$8,000 men was reported locked out yesterday, and their number is increasing rapidly.

The strike is extending. The employees of the Stockholm municipality and the state telegraph linemen have joined the movement, but the railwaymen's union has declined to do so.

Fire in Quebec Village.

Calumet, Que, Aug. 3.—A disastrous fire broke out in Grenville village at 3 o'clock p.m. today and destroyed five business houses in that village. D. Williamson, general store; H. Laurin, post office and general store; Mrs. Laughren, grocery; Miss Kelly, millinery store and La Victore's block, occupied as a jewelry store and shoo shop, were burned. The origin of the fire was the explosion of an oil stove in D. Williamson's dwelling, adjoining the store. In two hours and a half the buildings were burned to the ground. E. Kelly's and Morrow Bros, general stores, Sauvie's pool room and the schoolhouse were only saved by hard work by the people of the village with assistance from Calumet and Hawkesbury. The amount of insurance is very small considering the value of the property destroyed, which amounts to about \$25,000.

Have Bought Up Stock of Northern

Winnipeg, Aug. 3 .- It is the current report in grain circles today that the control of the Northern Elevator stock Peavey Elevator Company of Minneapolis. The Northern Elevator company own about 175 elevators in Western Canada. The transfer includes the good will of the business. The Peavey company is the largest elevator concern operating in the northwestern states. It already controls and is practically the absolute owner of the British American company, established in Winnipeg three years ago, and having a large country elevator line, as well as terminal houses at Fort William. The price paid for the reported control of the Northern is said to have been over \$1,000,000. Canada. The transfer includes the

Situation in Barcelona

Barcelona, via Spanish-Franco Frontier, Aug. 3.—The city of Barcelona is quiet, but the populace unceasingly demands the liberation of the prisoners taken during the fighting. Troops still patrol the streets, but otherwise life is almost normal. The number of victims of the disorders are far in excess of the official figures announced. The gunboat Temerare has arrived here with numerous prisoners,

Rome, Aug. 3.—The will of the late Don Carlos, the Pretender to the throne of Spain, leaves to the Pope works of art and money to a total of \$2,000,000.

To Exhibit in Russia.

Odessa, Aug. 3.—It is rumored that the Odessa Aero Club has arranged with Wilbur Wright, the American aeroplanist, to give an exhibition here on October 3rd.

Orders Aeroplane.

Orders Aeroplane.

Plainfield, N. Y., Aug. 3.—Although he knows little about aviation at present, Howard Colby, a brother of Everett Colby, formerly a New Jersey Senator, has ordered an aeroplane from Wright Bros., to be delivered in two months, the price being \$5,000.

Governor Hughes Entertained.

Scattle, Aug. 3.—Governor Charles F. Hughes, of New York, was enter-tained at luncheon today by the alumini of Cornell and Brown Universities of the New York State. Governor Hughes will leave by boat to-morrow for Vancouver.

Run Down By Train.

Newburgh, N. Y., Aug. 3.—By a quick jump, Mr. and Mrs. Joel Dickinson and their daughter narrowly escaped with their lives this afternoon, as the automobile in which they were riding was picked up on the pilot of the Erie express train and borne away. All received painful injuries.

King Manuel to Visit England.

Lisbon, Aug. 3.—King Manuel has accepted an invitation from King Edward to visit England in the early autumn. The invitation was couched in most cordial terms. No mention of King Manuel's marriage was in it, but the opinion is general that the subject will be discussed during the visit.

HONOR IS PAID

Premier McBride Takes Part in Ceremony of Unveiling Bust at Seattle

Seattle, Aug. 3.-Minnesota cele-Seattle, Aug. 32-Minnesota celebrated her day at the Alaska-Yukon-Pucilic Exposition by unveiling a bronze bust of her distinguished citizen, James J. Hill, the railroad builder, this afternoon. John Johnson, governor of the state, came to Seattle to deliver the Minnesota address and loosen the cord that held the flags of Great Britain, the United States and Japan on the monument.

loosen the cord that held the flags of Great Britain, the United States and Japan on the monument.

Premier Richard McBride and his three young daughters, the Misses Mary, Peggy and Dolly McBride; Hon. Dr. H. E. Young, provincial secretary and minister of education for British Columbia, and L. Macrae, the Premier's private secretary, arrived on the Princess Charlotte from Victoria ast night to attend the unveiling. The party were met at the dock by officials of the exposition reception committee and taken in automobiles to the Hotel Washington.

When Governor Johnson pulled the cord which released the flags, the Union Jack was handed to Hon. Mr. McBride, the band playing "God Save the King." Mr. McBride gave an eloquent address, touching on the achievements of Mr. Hill, and not forgetting the latter's Canadian origin.

Next the Japanese flag was handed to Consul T. Tanaka, Japan's national anthem belng played by the band. Mr. Tanaka's remarks were also eulogistic of the life work of the great railway builder, and expressive of the friendly feeling of his country towards the United States.

Governor Hay, of Washington, was

builder, and expressive of the irlendiy feeling of his country towards the United States.

Governor Hay, of Washington, was then tendered the American flag, the strains of the "Star Spangled Banner" accompanying the act. Governor Hay spoke in turn of what Mr. Hill's work had meant for the state and for Seattle in particular. Governor Johnson's speech as representative of Minnesota was characterized by his usual ability and eloquence. Coming from the scene of Mr. Hill's earliest activities in the rallway line, Mr. Johnson was well fitted to deal historically with the great work accomplished by the former.

A reception was given at the Washington state building to Governor Johnson and his wife. Premier Mo-Bride, of British Columbia, and Mrs. Tanaka, and the Governor of

Governor of

McBride, imperial consul ranaka, and Mrs. Tanaka, and the Governor of Washington and Mrs. Hay.

Tomorrow Governor Johnson and his party will accompany Premier McBride to Victoria and pay that city a visit, returning to St. Paul over the Canadian Pacific railroad.

President Taft, a number of

President Taft, a number of senators and a number of representatives and others sent letters of regret. Baron Takahira, Japanese ambassador, wrote: "Mr. Hill always has been friendly to Japan, never permitting a proper opportunity to pass without some expression of good will toward us. He has, therefore, been regarded in Japan as representing the good American friendship."

John D. Rockefeller wrote: "I am happy to join with the many to do Mr. Hill honer. He has wrought a great work, and has been a very important factor in the upbuilding of our railway systems. All praise to him. Would that we had more such men."

Cardinal Gibbons wrote: "Regarding Mr. Filli as a giant of finance and

ing Mr. Hill as a giant of finance and a man of generous heart, I should be glad if I could be present."

giad if I could be present."

Speaker Cannon wrote: "I think it is peculiarly fit that there should be a lasting memorial to commemorate the life and labor of Mr. Hill, who has been aptly characterized as the great empire builder of the Northwest.

Closer Relations of Britain and Russia Much Improve Situation

MINISTER ISWOLSKY SPEAKS OF AGREEMENT

Reference of Emperor Nicholas to Duma Is Taken as Significant

London, Aug. 3.—The Daily Telegraph's Cowes correspondent had an interview with M. Iswoisky, the Russian minister of foreign affairs, who spoke of the admirable international situation which had resulted from the friendship of the ruling houses of Great Britain and Russia, the two mighty empires, which yearly were growing closer and formed one of the most powerful guarantees of European and ultra-European peace.

M. Iswoisky referred at some length to Anglo-Russian co-operation in Persia. Questioned on the withdrawal of the Russian troops from Persia, M. Iswoisky said that it was a great expense to keep the two contingents there, and they would be recalled as soon as permanent order was restored and the administrative machine was working smoothly.

M. Iswoisky further expressed himself as highly satisfied with his conversation acre with Sir Edward Grey, the British foreign minister. He said the understanding between the two countries was grounded on a firm basis, and while they had no conflicting interests, they had increasingly powerful interests in common.

With regard to the situation in the island of Crete, M. Iswoisky said he had good hopes that the difficulty would be smoothed out to the satisfaction of all parties.

The correspondent adds that the Russian emperor's entourage was chiefly impressed with the emperor's favorable mention of the duma in his toast at Monday night's dinner. They see in it their monarch's unchangeable determination to maintain the existence of the representative institution he created. They consider this the most significant thing that has occurred during the Emperor's visit to Cowes.

Desperate Woman .Attempts Man's Life in Hall of Waldorf Astoria Hotel.

New York, Aug. 3.-There was a hooting affray in the Waldorf As-

New York, Aug. 3.—There was a shooting affray in the Waldorf Astoria this afternoon, in which a woman and a man figured. The woman did the shooting. The man's life was saved by a silver fountain pen, which deflected the bullet.

The principals in the affray, which caused a stir in the crowd of the hotel are Mrs. Mary A. Castle, 36 years old, a decidely good-looking matron, and Wm. D. Craig, a lawyer. Craig, who is a member of the Rocky Mountin Club, which has a suite of rooms in the hotel, was on his way to dress for dinner. Mrs. Castle, who had been waiting for him, laid her hand on his sleeve to detain him, and after a few words Craig sheok the woman off and went to the elevator. Mrs. Castle kept pace with him, and as he was about to step into the elevator, she opened a small handbag and took out a small revolver. She raised the weapon and fired when the muzzle. of the little revolver was within an inch of his coat.

When detectives arrived, the woman was sitting on a lounge weeping hysterically. When taken to the police station she said she was an insurance agent. She pointed to Craig, who was standing nearby, and after pleading for him to forgive her, said, "He is the cause of my trouble. He has thrown me over."

Craig said he would press the charge against the woman, but when she had regained her composure she said she was sure that he would come to her aid.

THE BEST EARLY CLOSING MOVEMENT

Go to bed at 10 o'clock and close your eyes. Don't however, close your eyes to the fact that a bottle of Lemp's Beer can be procured at any bar, hotel, club or cafe in Victoria. This pure malt and hop brew is not charged with carbonic acid gas as some beers are. It is thoroughly aged for months before being placed upon the market and has absolutely no bad after effects. It is the beer par excellence for the home—an essential to the true enjoyment of a heart luncheon. Your grocer can supply you with Lemp's Beer-for health's sake do not accept an inferior substitute.

SENATE HASTE

Agreement Reached to Take Vote on Report Tomorrow Afternoon

LEATHER SCHEDULE TO BE AMENDED

Opposition to Measure Practically Disappears in Course of Day

Washington, Aug. 3.—The complete collapse of all important opposition to the conference report on the tariff bill was evidenced today, when the senate agreed to vote on that measure on 2 o'clock next Thursday. Half an 'nour after an unanimous consent had been given for the adoption of that course, a general disinclination on the part of senators to speak brought an early adjournment until noon tomorrow.

When the senate met today the lack of interest in the proceedings was very evident. This had been caused by an agreement on the part of the western senators to vote on the conference report, and to correct the hide and leather schedule by means of a concurrent resolution to be acted upon separately. The form of the concurrent resolution was agreed upon in an informal conference held today in Senator Aldrich's committee room. In structions are given by this resolution to the enrolling clerks of the senate and house to change the language of the proviso reducing duties on boots and shoes, and harness. The change will make duitable at 10 per cent. boots and shoes, the upper leather of which is made wholly or in chief value from the hides or skins of cattle, including calfskins. A similar change will be made in relation to harness, saddles and saddlery. The effect of the amount of the including calfskins. A similar change will be made in relation to harness, saddles and saddlery. The effect of the amount of the included of contining the reductions to articles made from hides which have hitherto been dutiable. The range of the reduction is greatly increased.

The suggestion for an agreement to vote was made in the senate by Mr.

Increased.

The suggestion for an agreement to vote was made in the senate by Mr. Bailey, representing the minority, and at once concurred in by the chairman of the finance committee. The Texan intimated that there might be considerable debate on the concurrent resolution, but it is not believed that the discussion can be continued many hours.

hours. Senator Culberson gave notice that Senator Culberson gave notice that he would seek to amend the concurrent resolution by placing cotton bagging on the free list, that article having been placed there by the senate and removed by the conference committee, announcing that he could not vote for the conference report.

Senator Clapp spoke at length in denunciation of the measure, and Senator McCumber spoke briefly in its support.

support.

At 1.08 o'clock, the senate adjourned until tomorrow at 12 noon.

THAW PARANOIAC Alienists Give Opinions Which Make Prisoner Feel Somewhat Uncomfortable.

White Plains, N. Y., Aug. 3.—Three alienists today made it unpleasant for Harry K. Thaw in the supreme court. All three testified that he was insane, and when Thaw took the stand after

some disconcerting testimony he was plainly ruffled and nervous, but Mr. Jerome dismissed him after a few questions.

Of the alienists who testified, Dr. Austin Flint, Dr. Wm. Hirsch and Dr. Baker, the last named gave testimony of the most importance. He is superintendent of Matteawan asylum and is the only alienist to appear as a witness in the case without compensation. Justice Mills called attention to this fact, and took a hand in questioning him

Dr Baker said that in his opinion Thaw is not only insane now but a dangerous person to be at large. It was

tioning him

Dr Baker said that In his opinion
Thaw is not only insane now but a
dangerous person to be at large. It was
shortly after this declaration that Mr.
Jerome quickly cailed Thaw to the
stand. He was pale and apparently
shaken. The district attorney put in
evidence some rather coherent notes
written by the prisoner, and asked
him to explain them. After parries
back and forth and laborious explanations by Thaw of certain writings he
said: "All I want you to know, Mr.
Jerome, that many of these notes you
call suggestions were written at the
request of my lawyers."

Mr. Jerome pointed his finger at
Thaw and said: "Do you mean to sit
here and sell us, who observed you
in both homicide trials, that you were
not to be moved? You knew more
about the case than your lawyers did?"

"I do. was the quick reply.
Dr. Austin Flint, called next, described as a paranoiac as a person dominated by certain delusions,
whose mental and physical state
might not otherwise be affected, except in so far as these delusions influence hims—The progress of the discase was usually very slow, he said.
It rarely caused death, and except in
the last stages the patient might retain his faculties unimpaired. Paranoiacs, he concluded impressively,
never recover. Dr. Hirsch varied the
general verdict by declaring Thaw a
"degenerate paranoiac."

Charles Morschauser, Thaw's attorney, attacked this testimony, and
caused Dr. Hirsch some unhappy moments by inquiring about a book he
is writing.

"Do you in this book claim that
Jesus Christ was a paranoie?" he

"Do you in this book claim that Jesus Christ was a paranolac?" he

SHOTS FIRED IN STERN PURSUIT

Fusilade, However, Scares Off Complainant and Pursued Gets Off

The sound of revolver shots accompanied by strident commands to stop and the louder cries of the pursued created consternation among the Celestial residents in an alley east of the corner of Fisguard street and Store street about 12:30 yesterday morning. The trouble was all-occasioned by the rejuctance of John Hanston to stop when called upon by Constable McDonald to do so. The police officer following his quarry through the dark of the alley fired two shots from his revolver with the object of frightening the man but the latter never stopped and had it not been for the fact that in rounding the turn from the alley on to the alley and the tree has single the man but the latter never stopped and had it not been for the fact that in rounding the turn from the alley on to the alley on the stopped that the probleman went over him sprawling in the dust. However, the fugitive was captured and brought to the police station.

The Incident

The Incident
Constable McDone The Incident

The Incident

Constable McDonald, while on his beat, ran right into Hanston and another, Just in the genial process of noiding-up a drunken individual at the corner of Store and Flsguard streets. The victim seeing the approach of the officer, loosened his lungs to their fullest extent and bellowed in right brave flashion. The would-be hold-up men took to their heels but Hanston was easily captured and in charge of Constable McDonald set out for the Cormonant street place of detention, the intended victim following and loudly complaining of the usage meted out to him. Just as the trie came opposite the alley finansion suddenly jerked himself free and darted into the darkness of the passageway. The constable followed but was losing ground when he pulled the reverse of the store the store that the reverse of the store that and darted into the darkness of the passageway. The constable followed but was losing ground when he pulled his revolver and fired two shots to frighten the fleeing man. The shots failed in their purpose but the silppery nature of the cement pavement proved the fugitive's undoing. After coralling Hanston. Constable McDonald went back to see where the other had got to with the object of also bringing him along in order that he might lay his complaint. But the Intended victim of the hold-up, evidently startled by the sound of shots, had taken himself off and was nowhere to be seen. Hanston was taken to the police station where he was held all night but as there was no one to lay a charge of attempted robbery against him all the officer could do was to charge him with being drunk and let it go at that. Hanston was released yesterday afternoon after paying his fine for over-indulgence.

STARTLED BY EXPLOSION

Blasting Operations in Channel Give Rise to Conjecture at Early Hour Last Evening

The sound of a sharp explosion followed by the reverberations customary after a large discharge awakened the fears of those on the streets after 8 o'clock last evening. To any one on Cormorant street who looked westerly a column of smoke arising skyward aroused fears that a serious accident had happened in Victoria West, somewhere in the neighborhood of Russell station. Rumors of an accident to a locomotive were rife, but while residents in Victoria West clearly felt the shock caused by the explosion explanations of the event were forthcoming. Many a resident of that section of the city hied himself forth to locate the source of the trouble, but without result. The explosion was the result of blasting operations being conducted in the channel leading to the inner harbor and opposite the Brackman-Kerwharf. Work has been proceeding there for some time, and the boul detonation was the result of the setting off of a charge.

ROYAL ARRIVES

FROM THE NORTH

Brings Passengers and Cargo and News From Upper Rivers

The Princess Royal arrived in port ast evening from Skagway and the orth with 250 passengers and cargo. Thirty-eight passengers, including apt. Parry, R. of business and the city left in total darkness.

To add to the terror there was an incessant rattle from the discharge of cartridges in the sporting goods stores and detonations from the discharge of dynamite used to wreck buildings in the path of the flames.

No loss of human life is reported but at least sixteen horses perished and feeling is very bitter against George Ryan, discharged Great Northern engineer, who was last Saturday fined \$50 for turning in false fire alarms. Florence Roberts Weds Again
San Francisco, Cal., Aug. 3.—Florence Roberts, the actress, is on her way today to her home, Morrison Manor, at Peckskill, N. Y., accompanied by Thurlow Bergen, her leading man, whose wife she will become shortly after their arrival. Miss Roberts is the wildow of Lewis Morrison. Bergen was divorced last September, fris wife will be the morning the fire is still burning, and it has been impossible to compute anything more than a rough establishment.

PRESIDENT WILSON TO INSPECT G. T. P.

as any great enterprises might ex-pect. Now we have ample money to construct the most difficult portion of the road—that in the Rocky Moun-

pect. Now we have ample money to construct the most difficult portion of the road—that in the Rocky Mountains."

Sir Charles denied that there has ever been agitation in London for a Canadian board for the Grand Trunk, saying that only one or two obscure individuals have raised the question, and adding:

"We have no objection to Canadian representatives on the board, but it must be clearly understood that the whole financial responsibility must be in London, because most of the stock is held in Europe. A Canadian board would be more likely to be extravagant in lowering rates and giving more luxuriant accommodation than was warranted, without consideration of the claims of the owners.

"Apart from the question of finances, Mr. Hays has very full confidence in his great intelligence and ability. I have no objection to listing the stocks of the Grand Trunk in Canada if there is a sufficient demand for them, but any manipulating of the stock market here would be small compared to the gambling which takes place in Grand Trunk in London. The only difficulty in listing stocks here is an administrative one."

The following will comprise the party of Grand Trunk Pacific officials who will accompany the president over the G. T. P.; Sir Charles Rivers-Wilson, Lady Rivers-Wilson, Miss Evelyn Hutton, London, England; Charles M. Hays, president of the G. T. P., Miss Clara Hays, Montreal; Miss Jean Adams, New York; E. H. Fitzhugh, third vice-president, Grand Trunk, and the following other American officials: John W. Loud, freight Traffic manager; W. D. Dobb, superintendent motive power; James Coleman, superintendent car department; H. R. Charlton, general advertising agent; J. Alex Hutchinson, M. D. medical officer; H. E. Deer, assistant secretary, London; D. E. Galloway, secretary to Mr. Hays, and William McWood, former superintendent car department; and the content of the G.

EVERETT SCARED

cessive fires

BY INCENDIARIES

of incendiary origin

Everett, Wash., Aug 3 .- Five suc-

wiped out twelve business establish-

wiped out twelve business establishments yesterday afternoon and entailling a loss of no less than \$120,000. Snohomish county courthouse was one of the first buildings to succumb to the flames after seven hours' incessant combat with the conflagration. Firemen and citizens were rendered desperate by another more serious fire which started in a barn at 10 o'clock and which spread rapidly into the business districts.

The mayor requested that the local militia company be called out and 35 armed men were sworn in as deputy sheriffs.

armed men were sworn in as deputy sheriffs.

At midnight the chief and fifteen picked men of the Seattle fire department came up on a special train.

Snohomish also rendered assistance and at 2 o'clock this morning the danger appeared to be past.

Little less than a reign of terror existed in the early part of the night, with reports of fire coming in at frequent intervals from widely scattered localities, and under circumstances that left no doubt they were all of incendiary origin.

The electric light wires were put out of business and the city left in total darkness.

timate of the losses. Fortunately the fire was confined to frame buildings for the most part.

In the series of three fires beginning after 3 p. m. and continuing up to about 9 p. m., the aggregate loss was about \$50,000, and the loss in the subsequent fires was about \$70,000.

Among the buildings destroyed was the Snohomish county court house, worth \$40,000, with insurance of \$25,000. Priest Needs Revolver

Utlea, N. Y., Aug. 3.—Complaining that he had for months been continually persecuted by members of an opposition faction in his congregation, persecutions which culminated in an unsuccessful effort to kidnap him last night, Rev. Father Suck today appeared in the city court and made application for a permit to carry a revolver. In granting the permit City Judge O'Connor said: "Take it, father. Keep your gun loaded and don't be a bit backward about using it to defend yourself should you again be attacked by any of these ruffans."

Murderous Madness

St. Louis, Mo., Aug. 3.—Following the kidnapping of Grace and Alfonso Viviano, second cousins, aged 3 and 5 years respectively, and a demand for 255,000 ransom, detectives today arrested Joseph Bocano, suspected of being an accompilee of Samuel Turisti who is believed to have taken the children from their home. No trace has been found of Turisti, and no word has been heard from the children since the arrival last night of a special delivery letter in which it was said that they were being held for ransom. Murderous Madness
Vienna, Aug. 3.—A distressing family tragedy has occurred in Salzburg, where a wealthy man named Franz Hofer was suddenly selzed with madness. In a fit of frenzy he shot his wife and three children, and finished the massacre by hanging himself to the window. During the evening Hofer conversed in his customary friendly manner with his wife and children, but rising at four in the morning he loaded a sporting rife and went to the room where his two boys, George and Karl, aged 13 and 18 years respectively, slept. The evidently shot the younger first, while the boy was sleeping. The shot probably awoke the cliest son, between whom and his father a life-and-death struggle must have followed, as th boy's shirt was torn in pices, but a shot in the back finally stretched him dead on the floor. Hat Fire Causes Commotion.

Atlanta, Ga., Aug. 3.—A fire on the roof garden of the hat of a pretty girl traveller in the union station this afternoon, called out the fire companies, engaged a score of willing amateur firemen, delayed a fast train, and destroyed about \$30 worth of finery. The young woman, en route to New York, rushed into the station for something to eat. In paying her cheque she swung her hat too close to the eigar lighter, and in an instant it was a mass of flames. A waiter sent in a fire alarm.

Cooper's breeding stock, fourteen lots were sold for 48,190 guineas. It was in every respect a wonderful sale, F. C. Stern making it memorable by giving an unprecedented sum for Flair and her foals present by Gallinule and prospective by Minstead. When Sir Tatton Sykes paid the record price of 12,600 guineas for La Fleche, it seemed unlikely the figure would ever be exceeded for a brood mare. Another big sale made recently, and privately, was when Woolwinder was purchased by A. Baltazzi for the Austrian government for 15,000 guineas. Montreal, Que., Aug. 3.—Sir Charles Rivers-Wilson, president of the G. T. R., leaves tomorrow on a trip of inspection of the Grand Trunk and Grand Trunk Pacific. He first goes to Stratford, and Battle Creek, to inspect the shops; thence to Chicago, Seattle Victoria, Vancouver and Prince Rupert, returning east over the Grand Trunk Pacific, from Edmonton to Fort William, and thence by boat to Sarnia. He expects to be back in England by the end of September.

Asked this morning if he thought the critical period in the construction of the G. T. P. was now over, he said:

"There never has been a critical period, only such difficulties to be met as any great enterprises might expect.

When has a man no room for hidinner?—When he is "filled with emotion."

Smart and Jaunty Wearables for Boys

Boys' Puritan Blouses

Prices \$1.50, \$1.25 and 75c.

Handsomer and better Blouses than have ever been sold for anywhere near these prices; made in Philadelphia, very newest ideas—materials, fancy flannelettes, prints, zephyrs, etc., in cream, white, blue-all shades, plain and stripes, for lads of 7 to 12 years,

Boys' Pyjamas

Very pretty shades, fancy flannelettes of exceptionally good quality: fine cut, perfect fit, newest creations, stylishly trimmed with white braid, frogs and buttons. Most desirable garments for boys of 10 to 16 years.

MAKES MORE BREAD AND BETTER BREAD

SOLD AT ALL GROCERS ASK FOR IT

PURITY FLOUR is not a cheap flour in price. But price is not all that is to be considered when buying flour. Like everything else the low-priced flour may be the most expensive in the end. A few cents more for a bag of flour that gives more loaves of bread- and bread of far better quality-is the best kind of economy.

is for this last reason that we ask you to buy a bag of PURITY FLOUR and try it for yourself. Let it cost a few cents more per bag than some other flour you have used, if that is the case. PURITY FLOUR will give you more bread than the other. The bread will be of better flavor and color and will prove more nutritious. It will prove a saving to you in quantity, and in all-round satisfaction.

That is the basis on which we ask you to start using PURITY FLOUR. If it was not in every way worth the price it is sold for it would not command the enormous sale it has all over Canada. You will find, as so many thousands of others are finding every day, that PURITY FLOUR is the best flour for economy and for good results that you can use.

Buy a bag of PURITY FLOUR when next you need flour. Don't merely order "a bag of flour" and leave it to the grocer. You should be the one to decide what you will have. You are paying for it. Say to the grocer, "send me a bag of PURITY FLOUR," and get it.

COUNTED OUT IN BAR-ROOM ROMP

Pugilist Now in Hospital After Friendly Skylark With Boon Companion

After gaining a name for himself as a bruiser and winning two bouts against local purs. George McNamee, puglist and sport, was put down and out on Monday evening in the bar-room of the Colonial hotel when, in skylarking with a companion named Stewart, he fell and his head came in contact with an earthenware cuspidor. The two men had been drinking and in an alcoholic romp McNamee fell, hitting his head. He was out about as long as would have given the decision against him had he been in the squared circle and a hurry up call to the police completed the illusion of a raided meet. McNamee went to the hospital where he was attended to by Dr. Robertson, who after dressing the man's wound, a long gash in the scalp, sent him from the hospital as it was not considered that he needed treatment there. Stewart was corralled and locked up for an hour pending the outcome of McNamee's injuries.

Yesterday, the latter, who has been drinking freely was taken in charge by the police and after being placed in the cells so conducted himself that the stitches placed in the wounds burst. He was again put in Dr. Robertson's hands and after having his wounds dressed was this time sent to the hospital where he can be taken care of.

NOTED GERMAN NAVAL CRITIC COMING

Capt, Von Pustan Will Visit Esquimalt to Write Articles for Berlin Newspaper

Captain von Pustau, naval correspondent of the "Berliner Lokalanzeispondent of the "Berliner Lokalanzel' ger," is coming to Esquimait to make an investigation regarding the situation there with regard to the defences and naval conditions at this port, after a tour through Canada on which he has just started from Germany. Captain von Pustau is one of the most prominent of German writers on naval affairs. The coming of the noted German writer shows how the powers are beginning to look forward to the coming importance of the political development on the Pacific, which will assume great importance when the Panama canal is completed. The noted German writer will find the defences of Esquimait to be out of date and the naval station abandoned. He will, however, find much to interest him with regard to the probable construction of fortifications at Prince Rupert and Vancouver, where surveys were made some days ago to locate a chain of defences, the plan of which has been submitted to the Minister of Millitia and to the Imperial government. ger," is coming to Esquimait to make

been submitted to the Minister of Militia and to the Imperial government.

The investigation of naval matters and Canada's relation to the Imperial navy is but part of Captain von Pustau's mission to Canada. He will write a series of general articles durling stays at Montreal, Toronto, Winnipeg, Brandon, Vancouver and Victoria, with regard to local conditions in the Dominion and the opportunities for German trade expansion, in view of the German efforts to secure a firmer commercial foothold in Canada. A Berlin correspondent of the London "Standard," with regard to the departure of Captain von Pustau, says: "He will write articles as he goes along, describing the conditions of life, the country, its inhabitants, and particularly the prospects for German trade expansion. These articles will be published continuously in the "Berline Lokalanzeiger," and it is expected that they will do much to open the eyes of exporters and financiers in Germany as to the prospects of doing paying business in the Dominion.

In addition to this, Captain von Pustau will endeavor to interview as many Canadian statesmen as possible in order to bring before their notice the recently-formed German - Canadian Economical league, established in this country for the promotion of trade between the two lands, and he will sound them as to the prospects of a better commercial understanding being arrived in the near future.

TOM L. JOHNSON LOSES

His Plan for Scouring Three Cent Fares is Turned Down by People of Cleveland

Pacople of Cleveland

Cieveland, O., Aug. 3.—The Schmidt ordinance, providing for the grant of a franchise to Herman Schmidt, insuring three cent fares on a part of the city street car linos, was defeated at a referendum election here today by a vote of 30,944 to 34,926.

The Schmidt ordinance was fostered by Mayor Tom L. Johnson. The campaign which was waged for the last two months, has been particularly bitter. Mayor Johnson, municipal office holders and others held hundreds of tent meetings and urged the granting of the franchise. A committee of one hundred business men opposed it.

Now that the Schmidt franchise has been defeated, an attempt will be made to secure the passage of an ordinance for the settlement of the car light along the line proposed by Federal Judge Taylor. His plan provides, first, for a revaluation of the entire street car property by a committee of unbiased citizens. He would then put in force the three-cent fare plan, charging one cent for a transfer. In case this plan failed to pay a six per cent dividend on the valuation set by the committee, the price of the fare may be raised to seven tickets for twenty-live cents.

SOCIAL AND PERSONAL

Mrs. Crane will not receive on Thursday next.

Dr. Todd went over to Vancouver ast night on the Charmer.

Miss Murray of Sooke, who has been enjoying a delightful visit with Mrs. MacRae at the Manse, Victoria West, returned yesterday. Since leaving home Miss Murray attended the A.-Y.-P. Exposition in Seattle.

Man Accused of Passing Worthless Cheques Is Arrested at Beacon Hill

Wanted by the police for the past three weeks and believed to have left the city, James Graham was arrested yesterday afternoon at Beacon Hill Park where he was enjoying the air and scenery, by Constable Hutchinin the cells facing a charge of obtaining money under false prevences, in that he passed a cheque for \$5 on G. Bergstrem Bjørnfelt. Other cheques beleved to have been passed by the same party have been reported to the police but so far only one charge has been laid against the prisoner.

one charge has been laid against the prisoner.

Graham had been a resident of Victoria for a lengthy period. He has been a real estate agent, life insurance agent and has been occupied in a number of other capacities. Reports of worthless cheques having been passed have been made to the police several times and suspicion pointed to Graham but after a search for the man the police came to the conclusion that he had left the city.

Constable Hutchinson, however, discovered that Graham was still in the city and yesterday located his man at Beacon Hill Park.

Last evening the prisoner was bailed out by two of his friends each of which went security to the amount of \$500 for his appearance for trial. The prisoner will necked a gradient

\$500 for his appearance for trial. The prisoner will probably be arraigned this morning.

PITTSBURG, Aug. 3.—The expected eviction of families of the striking employes of the Pressed Steel Car company did not occur today.

ANTWERP, Aug. 4.—Chas. Brown, manager of the safety deposit vaults of the Marine National Bank of Buffalo, committed suicide on the steamer Vaderland as she was nearing Antwerp yesterday, while suffering from melancholy, the effects of a nervous breakdown. He had previously made an unauccessful attempt to kill himself by jumping into the sea.

THE G. T. PACIFIC

It is announced that Sir Charles Rivers-Wilson, president of the Grand Trunk Railway Company, is to visit Doubtless those who have been interesting themselves in the railway development of Vancouver Island will take the steps necessary to see that this subject is represented to Sir Charles and his party in the most forcible way possible. The occasion seems ripe for action in that regard, We think it may be taken for granted that the distinguished railway president has only a very general idea of this Island and of the advantages likely to result from its development in connection with the great system with which he is associated. He doubtless would be very glad to be as thoroughly informed upon the subject as possible. He is doubtless desirous of learning of everything that is likely to be in the interest of the undertaking now being carried rapidly through to a successful conclusion. The present occasion is not one for the presentation of arguments on this exceedingly important matter. We mention it only in order that every one interested in the railway development of the Island may help to have it brought prominently under the attention of the Grand Trunk's presi-

STREET DISFIGUREMENTS Alderman Turner wanted some old railway ties removed from the side of the street opposite Baker's brick yard. Alderman Humber thought the idea such an excellent one that he wanted to enlarge upon it and begin down by the City Hall and have a general clean ing up. Alderman Humber is a rash man. There are some things that must not be disturbed. Has he never read Magna Charta? Does he know nothing of the laws of the Medes and Persians? We fear a negative answer must be given to these questions or he never would have proposed anything so abominably revolutionary as to the removal of old wagons, old barrels, disused water pipes and in fact any old thing that any person sees fit to permit to lie upon the street from time immemorial. Alderman Humber is an iconoclast, a dreadful person, whose proper place at the present moment is in Barcelona, or somewhere else where ancient institutions are being undermined. To the eternal credit of the City Council be it said that his rapacity was nipped in the bud. Goodness only knows what might have happened if his unholy suggestion had tions of bric-a-brac that have adorned the roadsides of Victoria the Beautiful for so long a time that the memory of man runneth not to the contrary. And this dreadful representative of Ward One, with no respect for the mosses of antiquity, would have these things removed! Perish the thought! The thing might have been accomplished if the Alderman had gone about it in a less incendiary way. He ought to have moved for a committee to consult the City Solicitor to obtain his opinion whether the Police Department, the the Prevention of Cruelty to Animals is the proper body to move in such a matter. When that committee had returned its report, it should have been referred to the City Barrister for his Then when it came back it should have been amended and referred back to the committee to be again referred to the City Solicitor, to be again reported upon by the Council, to be again referred to the City Barrister, to be again brought before the Council. to be again referred to the committee, and so ad infinitum. Meanwhile the gnawing tooth of time would probably remove the things which trouble Alderman Humber's aesthetic tastes, or else kindly nature would have covered them with moss to be a delight to all that pass by. This is the course that Alderman Humber should have taken. Instead of that, he is so outrageously modern as to suppose that the best way to get an old wagon out of the street is to tell the man who left it there to take it away. About two years ago the Colonist mentioned that an obstruction had been lying upon a certain street for some time. The respon sible party removed it, and frankly said that he had left it to see how long the police would pass by it and not tell him to take it away. At last he got tired, and when the Colonist

mentioned it, took it away of his own

with the Nihilists we venture to com-

mend Alderman Humber for his fruit-

less effort.

At the risk of being classed

POLICIES CONTRASTED. Every one, who knows Mr. McBride,

to a Seattle reporter on the different policies pursued in this country and the United States towards aliens he spoke with moderation and good humor. The Premier was referring, so we gather from the report of what hesaid, especially to the policies pre-vailing in the State of Washington and this province. There is no doubt that he was wholly correct when he said that we are more liberal to them than they are to us. We make very ittle distinction between citizens and aliens. Almost the only difference is that the alien cannot vote. In Washington it is very different. In the constitution of the state there is a proviion prohibiting the ownership of land by aliens, unless it has been received in some particular way. We know that some lawyers have expressed a doubt as to how far this provision would really stand the test, but it is in the constitution just the same. In other respects, the privileges of an alien in that state are much more restricted than they are here. We do not know that this is a matter about which we feel like making any complaint. They have their policy; we have ours. They do as they like; we do as we like. If they do not want us except under certain conditions; that is their business. We need not feel sore about it or talk of retaliation, as we sometimes hear people do. As Mr. we sometimes hear people do. As Mr. McBride says we want to see people come from the United States, bring their money with them, live here and help develop the country. Perhaps we would prefer people of our own nationality; but unfortunately those residents of the United Kingdom who contemplate looking abroad for openings for theeir enterprise and capital, do not seem to realize as fully as we think they ought to what excellent opportunities this province affords. In consequence they have left the field almost entirely to people from the United States, who have been attracted here not only by the greatness of our administration. One of the most satisfactory things that one hears nowadays is the expression of absolute confidence which United States investors have in the mere word of the government has passed its word there is no going back upon it. It took United States investors some time to realize this, but they do so now and no class of people feel safer in the head of the lakes before the close of mavigation. It will also have a very marked effect in keeping the wetty marked effect in keeping the wety marked effect in keeping the very marked effect in keeping the word ways wery marked effect in keeping the wety marked effect in keeping the very marked effect in keeping the wety marked effect in keeping the wety marked effect in keeping the word ways wery marked effect in keeping the wety marked effect in keeping the very marked effect in keeping of the very marked effect in keeping the very marked effect in keeping the very marked effect in keeping of the verstation. It will also have a very marked effect in keeping to the present of the vertaility of the vertail are of sak McBride says we want to see people realize this, but they do so now and no class of people feel safer in the hands of the government of British Columbia than these same aliens. Af-ter all, is it not the truth that the government of a British country is founded upon good faith?

AMATEUR SPORT

One of the best known amateur portsmen of the city was speaking vesterday of the lack of interest taken amateur sport. He gave several rea-One of them was the growth of professionalism. Too many young men have got into their heads a notion that, if they are going to play in game as representatives of their home city, they ought to be paid for doing so. They do not play the game for the game's sake, but in the hope of getting something for doing so. They reckon to some extent upon the loca oride of their friends and neighbors to see that they are at no personal exense, if they are not actually paid, for upholding the honor of their town To what extent this influence affects young fellows and keeps them from participating in such sports as crosse, cricket, baseball or football, the gentleman mentioned did not say, but he and the others taking part in the conversation were clearly of opinion that professionalism is directly or in directly killing out legitimate amateur sport.

Another reason assigned was that the boys spent too much time with girls. Now it is not a good thing for young fellow to be too much in the society of young girls. He needs the companionship of his own sex. He needs the stimulus that comes from association and competition with other boys. All this seems to prove that girls can do a great deal to develop a love of athletic sport in their young friends, and it is really their duty to do so. They ought not to think because a young fellow takes them to see a professional match of some kind and talks learnedly upon the points of the game that he is really a sportsman. He is not any more than the man who watches a prize fight is a prize fighter, or the man who listens to an opera is a singer. The true sportsman plays the game himself.

Then of late years there have come into vogue such a great variety of amusements that there does not seem to be much time for true sport. With a half dozen vaudeville or moving picture shows going on every night, with the Gorge Park attracting hosts of young people, with the more expensive fascination of motor rides. there are so many things to see and lo that a young fellow never seems to have time for sport, for on the ocasions referred to he can always have with him the inevitable girl.

with him the inevitable girl.

Wherefore we appeal to the girls to help make real sportsmen out of the boys. Help them to develop a clean mind in a strong, clean body. As in days of old the belted knight took part in the tournament for the sake of a smile or a kindly world for the lady of his love, make the boys feel that the surest passport to your esteem is by way of the field of athletic sports, not by sitting on a bench and watching other people play for money, but by playing the game for the honor of the game itself.

TO HANDLE GRAIN.

To handle the grain that will be vill admit that in expressing his views produced east of the Rockies in an area approximately 1,000 miles long by 300 miles wide, the Canadian Pacific has 18,000 box cars in readiness, the Canadian Northern 9,000, the Grand Trunk Pacific 5,000, and other roads about 3,000 more, or 35,000 cars. The Canadian Pacific has 350 locomotives ready, the Canadian Northern 225, and the Grand Trunk Pacific 175. The Manitoba Free Press

Pacific 175. The Manitoba Free Press says:

The spider's web of railway tracks which have been spread throughout the west during the past year, with Winnipeg as its apex, will have considerable effect in relieving the congestion on the older lines, and save long wagon hauls across the country. The C. T. P. will accept grain all along its lines between Winnipeg and Edmonton for practically the first time, and will open its branch from Melville to Belcarres for the grain trade. The C. N. R. will be operating past Zelandia on the Goose Lake extension, southwest of Saskatoon, and where there is at present some 20 new elevators. This company will also take out some grain on its Battleford-Prince Albert branch. On the Brandon-Regina line of the C. N. R. there are now about 35 elevators in operation. The main line of the Canadian Northern is being ballasted both east and west at an enormous expense.

This year the double track of the C. P. R. will be fully completed between Fort William and Winnipeg, which will be of tremendous advantage in rushing the grain through to the head of the lakes before the close

age in rushing the grain through to the head of the lakes before the close

vator capacity at Winnipeg is 1,415,000 bushels.

In addition to the elevator capacity
of the west, the figures show that
there are 105 flour, outmeal, and feed
mills operating in western' Canada,
with a capacity of 46,605 barrels a
day. Of these 78 are located along
the lines of the C. P. R.; 42 of them
ere flour mills, with a capacity of
36,725 barrels a day; 8 are outmeal
mills, with a capacity of 1,340 barrels
a day; and 28 are feed mills, with a
capacity of 1,183 barrels a day.
On the C. N. R. lines there are 26
flour mills and one outmeal mill; the
latter together with one flour mill being operated at Humbolt by the Doukhobor society. The capacity of those
27 mills is 8,540 barrels a day. With
such a large output these mills become a very important factor in connection with the disposal of the crops.

This is a wonderful story to tell of

This is a wonderful story to tell of country which only a very few years ago had not been proved as a wheat producer, and concerning the future which grave doubts were expressed in quarters thought to be well inform-What may not the coming years have in store for it?

Contemporary says day of bicycle rone; contemporary should stand on Government street between five and six o'clock; bicycle great public con-

Telegram says there is objectionable anguage in United States tariff bill. Not half as objectionable as some of the language that is being used about

Apropos of that agreement between the City Council and the Tramway company it may be remarked in passing that Jordan was always a hard road to travel. But joking apart, have things come to this pass that the representatives of two corporations cannot get some one to put down in writing what they claim to be fully agreed upon. It looks like a case of too many cooks spoiling the broth.

Silver Spring Brewery on the Esquimalt road is not calculated to impress the citizens very much with the business of the City Council. There is no need go into particulars. All that need to be said is that the city endeavored to widen the Esquimalt road, failed in its effort and is now called upon to pay the Brewery people a nice little sum in damages. The matter has been turned over to the legal department. Better pay the money and pass a vote of thanks that the sum is no bigger.

We are very sure that the kindness

of Mrs. Henry Croft in placing her beautiful grounds and home at the disposal of the organizers of vesterday's fete was very highly appreciated by those who were able to be present and by those others, who knew of the facts, but found it impossible to attend the afternoon or evening gathering. To place such lovely grounds practically at the disposal of the people of Victoria shows a kindness heart worthy of the highest praise; but this is not by any means the first time that Mrs. Croft has shown her liberal spirit in matters of this character, although there can be no one who obtrudes her kindnesses less upon public attention. She is one whose right hand does not know what her left hand doeth.

GUARANTEED CARPETS, RUGS, SQUARES

THE NEWEST AND NICEST PATTERNS ARE SHOWN HERE

ERHAPS there is no article of home furnishings in which a guarantee of quality is an algular antee of quality is so desirable as in the carpets. It's so easy for the ordinary mortal to be fooled in the carpets. Now-a-days carpet makers duplicate in appearance the reliable carpets and rugs with worthless lines. Colors may look as good, quality, to the inexperienced, seem just as high, but colors soon fade and wear soon shows the poor

quality.

Safest plan is to buy only reliable sorts—guaranteed sorts. We have always guaranteed our carpets-assured our carpet customers perfect satisfaction and that is one reason for our ever growing carpet business. Another is the fact that here they find the very latest and newest patterns quoted at figures that compare favorably with any

Here are some sample values in Brussels carpets. Come in and see what we have to offer at, per yard

85¢, \$1.00 AND \$1.25. Above prices are for carpets made and laid by experienced workmen. We also have some interesting values in Axminister and Brussels Squares. Ask to be shown these.

No trouble to show them on the new rug racks. Prices will surprise you.-Second floor.

COMFY ROCKERS Dozens of Styles from \$1.50

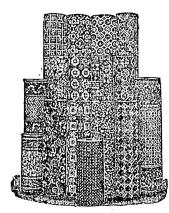

FALL into one of these comfy rockers - there's genuine comfort for you and with the prices so small there's no cuse whatever why you shouldn't own one or more. There's al-ways room for "one more" easy chair in any home.

Prices start as low as \$1.50 and between this figure and \$7.50 we show an interesting range of well built and well finished roc-ker styles. We would greatly appreciate an opportunity to show you these—to let you try them, and today would be as good as any day—Fourth floor.

NEW SIDEBOARD A Late Arrival, \$16.00

Here is a late arrival in sideboards and a little-priced piece that is excellent value. Made of golden finished elm. Has one large and two small drawers, two cupboards, bevel plate mirror with shelf above and two small side shelves. Finely finished and pleasing design. Priced at \$16
Third floor.

NEWEST PATTERNS IN FINEST LINOLEUMS

OZENS of delightful patterns are shown Dozens or denginal partial among our linoleums—the neatest and most attractive designs imaginable. You'll be pleasantly surprised at the variety, but the greatest surprise will be the values.

We take it for granted you are a homekeeper who appreciates the economy of quality, who agrees that it is the poorest sort of economy to purchase trashy second quality goods. Then your surprise will be doubly interesting for you'll see first quality linoleums priced like those "seconds." We sell nothing but the very finest linoleums:

PRINTED LINOLEUMS, from per yd. 50¢ INLAID LINOLEUMS, from yer yd....75¢ Second floor.

Nothing of the ordinary clay about these charming china tea sets we have just received-they are the daintiest creations of that famous Aynsley pottery. Just the sort of tea set that will make even a very ordinary meal genuinely inviting. See them. Priced from \$10

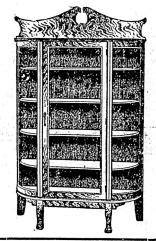

CHINA CABINETS Two New Ones at \$30 and \$35

From among the many interesting new arrivals in china cabinets we have chosen these two as representative of the many excel-lent values offered. No better made or finished cabinets are offered than are to be found in our

China cabinet made of oak finished, a beautiful golden. Has 4 shelves and two mirrors, bent glass door. A corner style. Priced at \$30.

VICTORIA'S FAIREST PRICES-ALWAYS. SUPERIOR GOODS

Unsurpassed Values All the Year 'Round

SAVE MONEY ON HOME FURNISHINGS HERE

THERE are a thousand thrills in this store for every woman or man who keeps eyes, ears and intellect open, for the home owner who delights in having good furniture and furnishings in the home. When you know the furniture, the carpets and the hangings are good-the best to be had for the price paid—the more thrills of pleasure you will get from them—from your home. And you are sure these are good—if you get them from the Weiler shop.

We believe that the dealer owes it to himself to know and feel that what he tells his customers is absolutely true—we have always believed it, and there you have one secret of our success. We make it a point to know the merchandise before we ask you to buy it.

Another success reason is the fact that we believe in being frank and honest with prospective customers. We tell them frankly that we don't pretend to sell the "cheapest" homefurnishings and we tell them just as honestly that we can save them money on their home furnishing appropriation. Let the goods and the price tickets do the talking. See the new furniture arrivals-priced to emphasize the fact that here you'll find "Victoria's fairest prices-always.

News of the World in Brief ::

PROVINCIAL

Auto Speed Nuisance

Vancouver, Aug. 3.—Despite the fact williams, recently have paid fines for Williams, recently have paid fines for exceeding speed limits in Kitsilano, autoists continue to run their machines at a rate dangerous to pedestrians, and the numbers of eight more machines have been reported to headquarters. Summonses for the drivers of these machines will be issued as soon as the identities of those wanted are established.

Fined \$100 For Assault

Fined \$100 For Assault
Vancouver, Aug. 3.—Robert Reid.
foreman of the Stanley Park stables,
who assaulted Joe Reynolds, foreman
for the Vancouver Transfer Co., on
the morning of July 22, was since the
morning. Reynolds was unable to remember any of the circumstances
from the time early on the morning of
the fight when he and Reid had an
argument in the Dunsmuir hotel over
some "fares" for their rival Tallyhoes, and the time he came beek to
consciousness in bed in his home Sunday morning.

F. J. Heney in Vancouver

F. J. Heney in Vancouver
Vancouver, Aug. 3.—An interesting personality at the Vancouver hotel this evening was Francis J. Heney, the determined prosecutor of the "graft" cases in San Francisco". He came in early in the evening and left again for San Francisco, in the course of a rapid trip back from Alaska to take up the second trial of Patrick Calhoun, the multi-millionaire president of the United Rallroads of San Francisco, on the charge of bribing a supervisor. He bears a scar on the right side of his face, just above the lobo of the ear. This shows where he was shot in the courtroom during the trial of the political boss, Abe Ruef.

Trapped by Marked Bills
Vancouver, Aug. 3.—When Edward
Hawkins went to bed last night with
William May, an old man, in the Iroquois hotel, he did not know that \$8
in bills which May carried was marked money for the purpose of trapping
him, so he purloined the small roll and
now is in jail charged with theft from
the person. Several days ago May and
Hawkins went to bed together and
May's money disappeared very mysteriously. May suspected his companion and informed the police. So it
was determined to mark the next bills.
This accordingly was done, and last was determined to mark the next bills. This accordingly was done, and last night the money again disappeared. Detectives Scott and McDonald arrested Hawkins, who confessed when taken to police headquarters. He denied taking the other money, however. His confession today will be used against him in court tomorrow. He was warned of the fact when he started to tell his story, and said he did not care. Hawkins recently was released from jail after serving several months for theft of cheques.

CANADIAN

summer Hotel Quarantined,
Toronto, Aug. 3.—The provincial authorities have quarantined a summer
hotel at Dwight and its 37 guests, because of the death of a child from
malignant diphtheria.

Railway Earnings.

Montreal, Aug. 3.—C. P. R. carnings for the period ending July 31 increased \$280,000 over the same period last year, while those of the Grand Trunk increased \$54,791.

Ontario Succession Duties

Ortanio Succession Duties.

Toronto, Aug. 3.—Succession duties of the province for seven months of the present year total \$497,306, an increase of nearly \$100,000 over the same period last year.

Damage by Electric Storm.

London, Ont., Aug. 3.—An electric storm today from Mount Brydges on towards Yarmouth did much damage, destroying barns filled with recently gathered crops and killing many cat-tle.

South Africa Trade.
Ottawa, Aug. 3.—The Canadian trade commissioner in South Africa, in reporting to the Trade and Commerce Lepartment, notes substantial increase in trade between the two countries, and

should be seen to be appreciated.

Ottawa, Aug. 3.—There have been over a hundred cases of rables in western Ontario reported to the veterinary department during the past two years. Commenting on this today, Dr. Rutherford, chief of the Dominion veterinary staff, said the department would have the department would have

Brutality in Lacrosse.
Ottawa, Aug. 3.—The police have a warrant for the arrest of Mike Ions, of the Tecumseh hicrosse team, charging him with a brutal assault on Kalls, of the Toronto team, while playing at Scarboro Beach yesterday. The chief constable announced recently that in future the police would prosecute all cases of rowdylsm by players at sports, and of rowdyism by players at sports, and this is the first warrant to be issued.

Drowned in Athabasca River.

Edmonton, Alb, Aug. 3.—News reached here this morning of the narrow escape from drowning of Count Yon Hammerstein and the drowning of Ed. Lafrance, and R. Volkoffsky. The three were trying to run the Grand Rapids on the Athabasca river, when their boat was swamped. More by good luck than anything else Von Hammerstein was washed ashore, but his two companions were drowned.

Business at Mint.

Ottawa, Aig. 3.—Increased trade development and improved financial conditions are resulting in greater demand for the colinage of silver and copper at the mint. Just at present the institution is undergoing repairs, but unusual activity is promised when it resumes next month. At the finance department it is stated that arrangements are practically the finance department it is satt-ed that arrangements are practically completed with the banks for the re-demption at 75 per cent of their face value of plugged coins. These, the Receiver-General will redeem through the medium of the banks.

Railways and Winnipeg.

Winnipeg, Aug. 3.—The Great North-ern and Northern Pacific will not build a passenger depot in Winnipeg. The announcement was made at a con-The announcement was made at a conference between the representatives of the railways and the city today, when also it was announced that it was the intention of the latter to demand that the railroads build five or six subways under the streets in this city. Instead of building the proposed depot these two railroads have entered into an agreement with the Canadian Northern and Grand Trunk Pacific for running rights into their Union depot, now under construction. This announcement came as a great surprise to the civic authorities.

Intercolonial Property Burned.

Intercolonial Property Burned.

Halifax, Aug. 3.—The coal sheds of the 1. C. R., more than a dozen box cars, half a dozen coal hoppers, seven hundred tons of coal and other property of more or less value, went up in smoke this afternoon at the I. C. R. yards, Richmond. The good work of the I. C. R. fire department, handicapped though it was by insufficient equipment, saved the surrounding property, especially the roundhouse, from destruction. The fire had gained considerable headway before the city apparetus arrived, when good work was done by the city men. The engines were all taken from the roundhouse, cars were hauled to sidings and farther from the scene of the fire. The D. A. R. train was delayed until trenches were dug under the rails for the hose, when it went in and the Syrney train went out, the delay to the D. A. R. train being slight. Damage is estimated at \$7,000. New coal sheds are being built at the new roundhouse, so the loss is not serious.

BRITISH

ndon, Aug. 3.—John L. Griffith erly American Consul in Liver-today formally took over the of Consul General in London, ir ession to R. A. Winne, resigned.

Ambassador Reid Stays.

Amnassador Heid Stays.

London, Aug. 3.—United States
Ambassador Reid has deferred his
projected visit to America on account of the negotiations, in the matter of the Chinese loan of \$27,500,000,
which requires the presence of the
ambassador in London.

Looking For Millennium

manufacturers being represented by travellers in South Africa.

Rabies in Ontario.

Ottawa, Aug. 3.—There have been over a hundred cases of rables in western Ontario reported to the veterinary department during the past two years. Commenting on this today, Dr. Rutherford, chief of the Dominion veterinary staff, said the department would have

FOREIGN

Blown to Pieces.

Easton, Pa., Aug. 3.—Milton Shive, of Patten, Pa., yesterday was splitting railroad ties when a terrific explosion occurred, and he was blown to pieces. It is said that a dynamite cartridge had been concealed in the tie, and that it was exploded when Shive's axe struck it.

Presidents to Meet.

Washington, August 3.—President Tart, of the United States, and President Diaz, of Mexico are to meet in El Paso on October 18. President Tart will be attended by his secretary, his military attache, and the personal friends who are to accompany him on his western trip.

New Cable Connection.

New Cable Connection.

New York, Aug. 3.—At Manhattan Beach there was hitched yesterday the end of a new cable which has just been laid by the Commercial Cable Company to Newfoundland, where connection is made with a line laid twenty-five years ago across the Atlantic from Ireland to Canso, but which was lately moved so as to terminate near St. John's, Newfoundland.

"Ḥall of Christ" Dedicated.

"Ḥall of Christ" Dedicated.

Jamestown, Aug. 3.—The Hall of Christ, a monumental building begun in 1899, was dedicated by Bishop John H. Vincent at Chautauqua today. The building was designed to symbolize the spirit of Chautauqua. Helen Gould of New York was a contributor to the fund of \$50,000 necessary to build the structure. The founding of Chautauqua in 1874 was commemorated with appropriate exercises tonight.

Peary Relief Expedition.

Peary Relief Expedition.

St. John's, Newfoundland, Aug. 3.—
The expedition which is to carry relief supplies to Commander R. F.
Peary, left St. John's today. The Sston schooner Jeanle will take 50 tons
of coal and the same amount of
stores, which she will land at Etah,
Greenland, to supplement the supplies on Pearys' steamer Roosevelt.
The steamer carries a crew of eight
and two passengers, a New York
newspaper man and Mene Wallace,
the educated Eskimo, who has been
in the United States for 3 years.

Shingle Packers Strike
Anacortes, Wash., Aug. 3.—A strike
of 100 shingle packers yesterday affected practically all the local mils, officers of the local union giving as a
reason for the strike the action of the
shingle mills bureau in forcing packers to do a higher grade of work without a corresponding raise in the wage
scale. The men had demanded a raise
of half a cent per thousand. The
weavers say the scale is being paid
by other mills in this city and elsewhere. The affected mills so far are
those of J. H. Cavanaugh, Wm. Burke
and the Anacortes Shingle company. and the Anacortes Shingle company.

May Tie Up Chicago

Chicago, Aug. 3.—A situation threatening to precipitate a great strike on the surface car lines of this city was made more desperate today when it was learned that the employees of all the elevated street railways are contempating a strike. The organization of the elevated railroad employees numbers 3,500 men. This, with the employees of the surface lines, would affect 12,100 in case of a walk out. It is known that the elevated railroad men have been considering the question of wages and working conditions for some time, and that there is considerable discontent felt by the men. The surface carmen are reported to be encouraging the "L" employees to strike in order to secure their aid. To this end the surface men are said to be fomenting the discontent of the elevated railroad employees. vated railroad employees.

Not For Police.

Provincetown, Mass., Aug. 3.—Rear-Admiral Schroeder tonight refused to surrender David Williams to Ernest Bradford, of the state police, who came from Boston today to arrest Williams as a result of the boxing bout held on the battleship Vermont on Friday night, when his opponent, Harrison B. Foster, was so injured that he died soon after. Both men were colored mess hands on the ship, and it was claimed that the bout was arranged to give an exhibition before a moving pleture machine. Admiral Schroeder stated that the government had instituted an inquiry, and he preferred to wait until that investigation had been concluded before acting further. The fleet was augmented today by the arrival of the fast cruiser squadron consisting of the armored cruisers North Carolina and Montana and the cruiser New York, which arrived early in the day from the Mediterranean.

Aviator Curtiss.

Aviator Curtiss.

Menola, L. I., Aug. 3.—Glenn H. Curtiss, the Hammondsport, N. Y., aviator, who will represent the United States in the aviation week events at Rheims, France, during the latter part of this month, made three short flights here this evening on Hampstead Plain, in the "Golden Flyer," an aeroplane of his manufacture, which a novice wreeked in a trial flight two weeks ago. In repairing the machine a new and larger gasoline tank has been attached with a view to making longer flights possible. Mr. Curtiss hopes to make a world's record before leaving for Europe on Thursday, but this evening, although the weather was ideal for aerial motoring, it was idiscovered after three short flights that scales and dirt from the new tank had got into the gasoline and, clogged the carburetter. Because of this, the engine ran very lirregularly, precluding the possibility of a record. As it was, in the three short flights the completerly encircled the field, but the longest flight was not more than half a mile. The new tank carried twelve gallons of gasoline, against the three gallons capacity of the old tank, and Mr. Curtiss believes that under favorable conditions the "Golden Flyer" will set a new world's record. The machine will be tried out again at daybreak tomorrow, and elther then or on Thursday, before he sails, he will try to make a record flight. The machine which he will use abroad is in New York,

SILK HAT SWINDLERS COME A CROPPER

Clever Combination Lives in Luxury Through Systematic Despoliation of Insurance Companies.

Paris, Aug. 3.-Two splendid autoforged title of nobility were the stockin-trade of a cleverly organized band of swindlers, who for the last eight years seem to have made an excellent living out of it. Their method was very simple. The gang consisted of six associates, the eldest of whom assumed the title of Count Gronotton de Thuin. A boulevard beauty completed the membership. She passed off as a theatrical artiste who owned one of the autos. The pseudo count obtained appointments as an accident insurance agent, and had his automobiles regularly insured in different companies against accident. The other members of the gang acted either as chauffeurs or owners of the cars, with new names and addresses on each occupient. The other members of the gang acted either as chauffeurs or owners of the cars, with new names and addresses on each occupient. The procedure vases, worthonly very little, were certified to have been purchased for \$1,000.

When money was needed at the end of each month the two automobiles were simply brought into collision in any public thoroughfare, and the one occupied by the artistic invariably contained one of the porcelain vases, which was smashed in the shock. Policemen only too willingly take note of the damage done, and the companies usually paid out the sum of \$1,000 claimed. To avoid suspicion being excited by the two frequent demolition of porcelain vases, other objects of art were sometimes carried in the cars, with a similarly high, but fictitious, purchase price. A mere accident revealed the whole secret of the gang. The pseudo-count happened to have a quarrel with a tran-conductor over a triffe, and both were taken to the poin-trade of a cleverly organized band of swindlers, who for the last eight

The pseudo-count happened to have a quarrel with a tram-conductor over a trifle, and both were taken to the police station. The insolent behavior of the sham count when parading his title and showing his card, aroused the suspicion of the police officer, who then and there ordered him to be searched, and found him in possession of needlent insurance policies with

ALLEN & CO.

THE WEATHER

Meteorological office, Victoria, B. C. at 8 p. m., August 3, 1909;

at 8 p. m., August 3, 1999;
SYNOPSIS.
There has not been much change in pressure conditions today; rain has fallen at Port Simpson and Barkerville and east of the Rockles at Minnedosa and Port Arthur, but the weather for the most part, both on the Paeffic slope and in the Prairie provinces has been rair and warm.

TEMPERATURE.

Highest TUESDAY.

Lowest Mean Sunshine, 5 hours, 48 minutes,

Will Lease Waterfront. The provincial government has decided to lease a certain amount of the waterfront that it owns at Prince Rusert and forth

waterfront that it owns at Prince Rupert, and for the purpose of mapping out those portions which come under this head, C. D. Rand, the government agent, is at present in the northern townsite. The property will be leased on a graduated scale, and no restrictions will be placed on the purposes for which the land may be used. This decision of the government will throw open a large portion of the most desirable waterfront in Prince Rupert to industrial and shipping enterprises.

Governor Johnson Coming

Governor Johnson Coming
Governor Johnson, of Minnesota, who
will be a visitor to the city today, is
one of the leading lights in the Democratic party of the United States, and
a possible candidate for the presidency
in 1912. A well-read man, keenly interested in literature, his highest ambition he on one occasion stated is to
write a successful book. One of the
greatest graft fighters in the United
States, he has made Minnesota perhaps the cleanest state in the union in
this respect. Governor Johnson possesses a charming personality, and is
a fluent speaker. It is understood that
he will only remain in Victoria during
the afternoon, leaving again for Seattle
by the Princess Charlotte.

OBITUARY NOTICES

Hamilton

The funeral of the late Gavin Hamilton took place yesterday afternoon at 3:45 from the Victoria Undertaking Parlors and at 4 o'clock from St. Andrew's Presbyterian church, the Rev. W. L. Clay officiating at the church and graveside. The pallbearers were all members of the Hudson Bay Co., of which the late Mr. Hamilton was a valued factor, and are as follows; Messrs. A. McDougal, G. McKenzle, J. H. Lawson, J. O. Graham, A. M. Russell and Hilton Keith.

Tunco

The remains of Glan Tunco will be shipped by the Victoria Undertaking Parlors this morning to Ladysmith, B. C., on the morning train.

THE STOLEN HORSE.

An Old Proverb With a New Applica-

The woods are full of "so-called" remedies for Baldness.
You may call anything in creation a remedy, but to use them is like locking the stable after the horse is stolen.
Baldness and Dandruff are caused by a germ—if you don't kill the germ the germ will kill the hair.
Scientists have labored with the problem of a preventative for Baldness for many years.
Newbro's Herpicide is the product of a modern idea, and will cure Dandruff and prevent Baldness, because germs cannot exist when you apply Herpicide.

cannot exist when you apply Herpicide.

Herpicide is a valuable hair dressing and scalp disinfectant, as well as a cure for Dandruff.

Sold by leading druggists. Send 10e in stamps for sample to The Herpicide Co., Detroit, Mich.

One dollar bottles guaranteed.

Cyrus H. Bowes, 98 Government St., Special Agent.

Next Sunday the Iroquois will stop one hour at Cowichan and return via the beautiful Sansum Narrows. This is a most delightful outing. V. S. train leaves Victoria 9:45 a. m. A chance to see the wonderful scenery along this route.

NEWS OF THE CITY

The Vacation Judge

Mr. Justice Martin will be vacation judge in Victoria for the month of August, but he will not take chambers this morning. Chief Justice Hunter, however, will sit today, and will take chambers at 12:15.

Grocers' Picnic

The annual pienter of the Victoria grocers will be held at Sidney on August 12. A programme of sports and ball games has been drawn up, and an enjoyable outing is foreshadowed.

Heavy Travel on Trams

During the month of July no fewer than 517,267 people availed themselves of the cars of the B. C. Electric rail-way in this city, an increase of 67,491

Owners Ignored.

Owners on Shelbourn street have a grievance against the city council. Some time ago a petition for local improvements on that street was presented to the council but so far no action has been take nand, the owners claim, no answer to the petition has been vouchsafed.

Want Improvements.

Want Improvements.

Owners on Randail and St. James streets have become ambitious and will apply to the city council for local improvement works on thise thoroughfares. Petitions have been circulated and largely signed urging on the council the advisability of laying permanent sidewalks on both sides of those thoroughfares.

Road Extension.

Road Extension.

If the request of the owners interested is granted Manchester road will be opened up from Burnside road to the Gorge road and be graded, drained and macadamized while permanent walks and boulevards will be laid. The owners have petitioned the council for the improvement works and the city engineer will make a report on the cost thereof.

Inquiring Into Needs

Inquiring Into Needs
With the object of finding out the needs of the inhabitants in the different island districts in the matter of roads and public improvements, the Hon. Thomas Taylor, minister of works, is at present on a tour through Nanaimo and Alberni districts, and while away he will also visit the islands off Comox.

Building Prince Rupert Wharf

Building Prince Rupert Wharf
Work on the provincial government
wharf at Prince Rupert is now well
under way, and the reinforced concrete structure, 600 feet in length, being built at a cost of \$70,000, will be
completed by the end of October. Its
crection will afford up-to-date wharfage accommodation for a number of
vessels, and its permanent nature is a
mark of the government's interest in
the northern townsite.

Arranging New Station

Arranging New Station
Dr. A. T. Watt, superintendent of
the quarantine station at William
Head, accompanied by Dr. Montizam
bert, superintendent of quarantines
for the Dominion, left for Seattle yesterday afternoon and will proceed to
Vancouver from the Sound port to
board the steamer Camosun on their
way to Prince Rupert to make arrangements in view to the establish
ment of a quarantine station at the
new railroad port in the north.

Conservative Picnic

Elaborate preparations are being made for the annual Conservative picnic to be held at Sidney next Saturday, and the affair promises to prove yory successful. Several of the ministers will be in attendance including Premier McBride, and also a number of the members in the local house. An athletic programme has been arranged, and the Fifth Regiment band and the Scotish pipers will be present to enliven the afternoon.

Returning From Seattle

Returning From Seattle
Premier McBride will return from
Seattle this afternoon, whither he
went to be present during governors'
week at the A.-Y.-P. Exposition. Yesterday he attended the unveiling of the
monument to James J. Hill, the great
railroad builder, and during the ceremony made an address. On his return
today he will be accompanied by Governor Johnson, of Minnesota, and a
party of 45 others, all of whom will
be taken in tally-hos round the city
and the environs.

Is Asking Damages.

Is Asking Damages.

Because the city, in carrying out the local improvement work on Government street between Toronto street and Niagara street, a work which necessitated the expropriation of a strip of land from off the lot owned by Mrs. M. P. Garnham, she has, through her solicitors, Messrs. Crease & Crease, put in a claim for \$1,000 damages in compensation for impairment of the rental value of the property as well as the destruction of the privacy hitherto enjoyed by her and the impairment of the garden and usefulness of the back yard. The city solicitors will report on the legality of Mrs. Garnham's claim.

Got Off on Technicality

C. Bridges, charged with habitually frequenting a house of ill-fame, was ilscharged yesterday in the police court. His counsel, J. A. Alkman, got court. His counsel, J. A. Alkman, got him off on a technicality. The code provides that a man charged with such an offence must be afforded an opportunity to give a satisfactory account of his visits to the house in question. The police gave him the opportunity, but before putting the question they informed him that he was under arrest. Acting magistrate Prior supported Mr. Alkman's contention that such questions had to be put before notification of arrest, and discharged the accused.

Make Vigorous Kick.

Make Vigorous Kick.

Because a receptacle meant for street sweepings, and located at the corner of Douglas street and Broughton street, has become of such a malodorous nature that neighboring residents cannot stand the stench, complaints have been made to the city council to either remove the offensive object or use it for the purpose for which it is intended. The Westholm Lumber Company voices the protest of the neighboring residents and the kick has been sent in to the council. Just why it was necessary for the city to order the sanitary inspector to "inspect" the complained-of receptacle when all that was necessary was to send a man to empty it is something the kickers cannot comprehend but they rest content in the belief that all civic matters must be conducted with decorum:

CIVIC SHACKS MUST COME DOWN

City Engineer Will Take Council at Its Word-Doesn't Worry About Horses

Should anyone locate sometime tolay a number of forlorn looking nags tied to a telephone pole or stationed anywhere in the open, there will be no

day a number of forlorn looking nags tied to a telephone pole or stationed anywhere in the open, there will be no neessity to inform the police or call for the services of the officers of the Society for the Prevention of Cruelty to Animals. They will have an owner, and will merely have been tethered where they are because the aforesaid owner has no other place in which to stable them.

Today bright and early the much talked of, and long delayed, order of the city council will be put into force. The old buildings at the city's yard on Yates street will be torn down. The city engineer urged thereto by the repeated protests of Ald. Turner, who, despite the fact that no place to stable the horses hitherto kept at the Yates street yard has been provided, yet insists that the demolition of the premises shall be carried out, will go ahead, and in short order the site now occupied by the old buildings and forge will be swept as clean as a floor. City Engineer Topp is quite willing to admit that it is now some two weeks since he was ordered to pull down the buildings. It is also sometime more than that since a special committee of the council was appointed to choose a site for new yards. The committee has done nothing. In fact two committees were appointed, but vern at that no apparent results were achieved. City Engineer Topp, while quite willing to go ahead, was nonplused what to do with the horses stabled in the old yards. Some provision had to be made for them, but he felt that pending the choice of a new site it would be as well to delay pulling down the old buildings. This, according to the tenor of the remarks made by Ala. Turner at Monday night's council meeting, did not at all please that representative for Ward Five, and he waxed sarcustic at the expense of the engineer and other civic officials. As a consequence the engineer has decided to go ahead and—be hanged to the horses. If the council is willing to pay stable rent for the nags that is its own business, but stabling horses does not come within the scop

MARKET GLEANED BY INSPECTION

California Fruit Barred by Inspectors and Peaches and Pears Are Scarce Here

California fruit, particularly peaches and pears, is receiving some rude jolts of late from the fruit inspectors stationed here and at Vancouver.

For the past two days California fruit, with the exception of watermelons and bananas, has been conspicuous on this market by its absence. Two carloads of fruit were recently condemned at Vancouver, fruit which had been shipped from the south, and the same has occurred here where the inspectors have condemned a large amount of pears and peaches intended for the local market. This fruit is strictly at a premium, and in fact there is practically none for sale. As at present the entire supply of peaches and pears come from the south, and will in fact have to be looked to to supply the greater part of the demand this year owing to the damage done the trees in this province by the frosts in the spring, it is likely that the price for both varieties of fruit will this fall be unusually high.

Southern shippers are now refusing

MEN'S FURNISHINGS

THE EGYPTIAN'S SECRET MUNICIPAL HEADS VISIT VICTORIA

Charmed With Capital's Beauty —On Pleasure Bent After Business Done in East

The Egyptians of Pharoh's time were a wonderful people. The pyramids, for instance, put our modern buildings to shame. Where such huge blocks of stone were carved—how they wore moved and put in place—are mysteries to modern minds.

The Egyptians were skilled physicians, too. We know that they used fruit julces in treating many diseases. Some years ago, a physician in Ottawa discovered a method of combining the julces of apples, oranges, figs and prunes, by which the most remarkable results have been obtained.

Whether "Fruit-a-tives" (these combined fruit julces in tablet form) are a re-discovery of the prescriptions of the ancient Egyptians will probably never be known. Victoria is today harboring a party of leading municipal heads in the per-son of several representatives who have been in attendance at the annual convention at Medicine Hat of the Union of Canadian mynippalities, to the ancient Egyptians will probably never be known.

Certainly, the ancients never had a more effective remedy than "Fruit-atives" for all Stomach, Liver, Kidney and Bowel troubles. "Fruit-a-tives" are sold by dealers at 50c a box, 6 for \$2.50, or trial box, 25c—or sent postpaid on receipt of price by Fruit-atives, Limited, Ottawa. Jnion of Canadian municipalities, to which body the city of Victoria be-

convention at Medicine Hat of the Union of Canadian municipalities, to which body the city of Victoria belongs.

The delegates after completing their labors at the Prairie city have come to the coast with a view not only of meeting the various heads of municipalities in this province and discussing municipal matters but also with the object of taking in the A.-Y.-P. exposition at Seattle, after which they will return to their several homes in the east. Among the party are Mayor J. H. Chisholm, of Hullfax; Mayor E. H. Kyle, of Brockvile; Mayor and Mrs. Hopewell, of Ottawa; W. D. Lightall, honorary secretary of the Union of Canadian Municipalities, and ex-mayor of Westmount, Montreal, and Mrs. Lightall; J. Kelso Hunter, city clerk, and Mrs. Hunter, of Regina; Mayor Deschamps, Lachine, Quebec; City Clerk McCready, of Fredericton, N. B., and his nephew Roger Cooper, of the same place; Mayor Hopkins, Saskatoon, Sask; W. C. McNab, inspector of rural telephones, Regina; Ald, J. N. Basque, Regina; G. S. Wilson, assistant secretary of the U. C. M., Montreal, and H. Bragg, assessor of St. Lambert, P. Q., who also represents the Canadian Municipal Journal of Montreal. The party, accompanied by Ald, John Macmillan, of Vancouver, arrived in the city yesterday afternoon on the Princess Charlotte, and after a two days' stay in the city will proceed to Scattle.

Guests of Mayor On the other hand the inspectors claim that they are only acting within their rights and for the protection of local orchards. The fruit from the south this year has been unusually dirty and infected with the diseases peculiar to fruit. They admit that perhaps it is a hardship on local dealers, but until such time as the southern shippers see fit to send out clean fruit there is no other course for the inspectors to follow.

Guests of Mayor

Guests of Mayor

Last night the visitors were the guests of Mayor Hall on a launch trip to the Gorge and other points of interest. Accompanying them were Alderman and Mrs. Turner, Ald. and Mrs. McKeown, Ald. and Mrs. Bishop, Ald. Fullerton. Mrs. Hall was unable to be present owing to her absence from the city. A visit was made to the B. C. Electric company's park; the Japanese gardens gave the visitors a peep at the Orient and the beauties of the Gorge were thoroughly enjoyed. This afternoon the party will be given an automobile trip through the city and suburbs. The latest portion of the Island to come in line with the development spirit which is abroad is Port Renfrew. The inhabitants there have just organised a league auxiliary to the Vancouver Island Development league. A meeting of the settlers was held on July 26th, when the organization was duly launched, with T. M. Baird, sr., as president, and J. W. Williams as secretary. The following members were enrolled: T. M. Baird, jr., Roderick McDonald, Robt. Elliott, Reginald J. Horton, Fred. A. Payzant, T. Edward Doyle, and E. P. Wiggs.

Recently the above settlers, before incorporating into a league, passed a resolution that the season's appropriation for public works in that neighborhood should be used in opening up a road from Jordan-river to San Juan river, and that the present road from the wharf to E. P. Wiggs' place should be improved. They forwarded-this resolution to the effices of the Vancouver Island. Davelopment league here asking for support. The development league wrote back suggesting that they should form themselves into an auxiliary league, when the parent body would be able to lay the matter before the provincial government. The settlers acted upon the suggestion, and the Hon. T. Taylor, Minister of public works, has been informed of the resolution which they have passed.

Practically all the populated parts of Vancouver Island have now been organized into auxiliary branches of the development is land have now been organized into auxiliary branches of the development is hat the different districts are working hand in hand for the development of the whole Island. No petty jealousles have arisen, and there is little doubt that the work already accomplished has been of a most satisfactory character.

afternoon the party will be given an automobile trip through the city and suburbs.

"See Mr. Lightali" was the injunction given by each member of the party when the Colonist met the party at the Empress and endeavored to get their impressions of their trip west. "He is the daddy of the party," was the universal cry. "He knows it all," and they laughed as Mr. Lightall modestly came forward to tender to the waiting newspaper man not only his own, but the composite opinion of the entire party on Victoria's charms. "We are simply delighted with this city," declared Mr. Lightall. "I can't answer for all the rest but for myself this is my first visit to Victoria, I have heard a great deal about it. In fact in my capacity as honorary secretary of the Union of Canadian Municipalities I have had occasion to deal with some of your civic problems which have been referred to the Union for legislative action at Ottawa. It has always been my wish to come to the coast, but this is the first time I have succeeded in so doing. It will not be long, I believe, before we, as a body, hold our annual meeting in the capital city of British Columbia, when we hope to become better acquainted with its world-wide charms."

Protects Municipalities.

we hope to become better acquainted with its world-wide charms."

Protects Municipalities.

Discussing the convention which was recently held at Medicine Hat, Mr. Lightall stated that the sessions had been productive of much good, and many topics of interest to the various municipalities had been discussed. The union was organized in 1901, and as a result charter mongers and companies whose chief object appears to get the best of municipalities in which their activities may call them have been curbed through the united efforts of all the municipalities interested. The fundamental principal behind the organization of the union is protection for municipal rights. Singly the municipality could do little, but combined they have been able to secure legislation protecting their interests, and a review of the important measures passed by the Dominion and provincial legislatures shows what an important place the union has gained for itself. Victoria has sought the assistance of the union on more than one occasion, particularly in regard to the protection of streets and highways from the grasp of corporations. At the meeting held recently, a two Southern snippers are now returning to ship any fruit to Victoria except at the buyer's risk, and dealers in Seattle have taken the same stand, claiming that the inspection here is so strict that they will not ship unless dealers month the duplicates of the couppons placed in the sacks of Royal Standard flour leaving our mills, we draw ten numbers. If you are fortunate enough to secure one of these, you are entitled to a dinner set free of charge. There have been many winners. It may be your turn now. Watch this paper every month.

Southern snippers are not we returned to the part in the flow returning that the Visits and dealers in Seattle have taken the same stand, claiming that the inspection here is so strict that they will not ship unless dealers will consent to take chances on the past in the way of inspection, don't feel like taking the risk of lowing and afterwards have their purchases confidented, and thus it is that Victorians are likely to lack the luscious peach on the 'Frisco boat which will arrive today, but as it will have to pass inspection, dealers are not banking too they gour turn now. Watch this paper every month.

Southern snippers are not were trisked to the bare taken the same stand, claiming that the buyer's risk, and dealers in Seattle have taken the same stand, claiming that the buyer's risk, and dealers in Seattle have taken the same stand, claiming that the buyer's risk, and dealers in Seattle have taken the same stance on the lawe taken the same stance on the lawe taken the same stance on the return of the mecting of the triat they ways from the grap to the protection of streets and high-there taken the buyer set and high-there taken the bave taken the same stance on the lawe taken the same stance on the latter of the two the resignation of Hun, Sidney Fisher, and it way session was held at Medicine Herald, which is looked upon as the personal organ of Hon, Sidney Fisher, and it way session was claiming to the redisk, with in view of the reard. As the following interesting news arti

Charmed With Victoria.

Mr. Lighthall, speaking for himself and the balance of the party, declared himself enamored with Victoria. 'It is a charming city.' he stated. 'I was most favorably impressed with the manner in which the council of our city has met the various municipal problems which have confronted them.'

When told of the attitude of the public towards the municipal problems. "Up to the last few days there was a pretty confident belief that the special train with Sir Charles Rivers Wilson and the English directors would be able, with Mr. C. M. Hays, the president of the road, to go over the whole route from Fort William to Edmonton.

"It is now considered doubtful if they will be able to do this, owing to the sink holes that have been discovered west of the Winnipeg river crossing. The responsibility is held to be with the contractors. The latest arrangement is that Sir Charles and his party will be taken over as much of the system as is ready for the carrying of a special train. There seems to be a doubt as to his being able to get over the whole."

confronted them."

When told of the attitude of the public towards the municipal regime here and the criticisms which have been directed against municipal methods, Mr. Lighthall, as an ex-mayor, laughed, and declared that of course local matters always occupy the major part of the attention of the residents of each municipality, and there is always more or less adverse criticism; but as a rule things work out all right in the end. So far as Victoria is concerned he could speak, not only for himself but for the balance of the party, and say the city appeared to have solved the majority of the problems which confront every municipality, and to have solved them in a particularly satisfactory manner.

"I have heard a great deal about Victoria the Beautiful." The term fits this city, and I don't think I can say anything more."

An Authority.

problems elsewhere. He has written several works bearing on municipal matters, which have become authorities on the subjects. One of the main subjects dealt with at the recent convention of the union of Carsadian municipalities was that of a uniform system of municipal statistics and municipal accounting. The system advocated was accepted, and in time, it is hoped, will be generally adopted. Some 100 regular members of the union were in attendance at the convention, besides delegates from the various provincial unions which, while not associated with the union directly, are indirectly so. The convention, therefore, was representative of nearly 700 municipalities throughout the Dominion.

Notice To Mariners.

Captain J. Johnson, of the American teamship Ohio, reports that one hour before low water in Tongas Narrows fits this city, and I don't think I can say anything more."

An Authority.

Mr. Lightall has had a wide experience in municipal matters, not only as former mayor of Westmount, but also from his study of municipal U. S. C. and G. Chart No. 8094.

Johnson made soundings in this vicinity, but was unable to locate the rock in the short time at his disposal. He reports finding 9 fathoms where the above chart shows between 12 and 17 fathoms off the west end of Channel Island.

ZAM-BUK CURES SUNBURN

Don't have your vacation spoiled by the pain of sunburn; and don't have your skin permanently freekled from the same cause.

Zam-Buk contains herbal extracts and fuices which not only ease the pain of sunburn, but prevent unpleasant results from it. Zom-Buk applied to a bad burn gives speedy ease. It also soothes blisters, aching feet, chafed places, insect stings, etc. See that you take it with you to the country!

Mothers should know that for baby's chafed places it is better than powder.

Here and There

What happy wife and mother who goes about her daily tasks with a heart free from care, would change place with the Empress of Russia? Who can help pitying the royal couple who in the midst of splendor live the life of prisoners? One can scarcely imagine any fate more wretched than to be forever surrounded by guards. To fear that at any-moment her husshand may fall the victim of the hatred of his subjects is surely cause enough for the depression from which it is said this most unhappy lady suffers. If, as is sometimes hinted, the Empress returns the hate and suspicion with which the royal family of Russia is regarded, can we find it in our hearts to blame her?

The great pageant at Cowes, where the Russian Emperor and Empress met their kinsfolk, the King and Queen of England, must surely have added another bitter drop to the cup of the visitor. To see signs on every hand of the love with which British royalty is regarded and to feel the atmosphere of kindliness towards all which surrounds the royal couple, must convince both Czar and Czarina, if they are capable of conviction, that there is something very wrong in a system which forces them to remain prisoners on the royal yachts, however luxurious may be their appointments.

This better to be lowly born And range with humble livers in content. What happy wife and mother who

Than be perk'd up in glistering grief, And wear a golden sorrow" the saying attributed to an unhappy queen of long ago, and surely the Em-press of Russia might echo the words

There is a scheme on foot among a number of philanthropic women in Boston, the leader of which, by the way, is a married woman, Mrs Glendower Evans, to organize a pension fund for old maids. It is proposed that every unmarried woman who is earning an income shall tay aside a sum regularly with the bank and insurance company formed by these benevolent ladies, and that at the age of fifty she shall receive an annulty therefrom. Mercenary marriages and the worry of penniless spinsters as well as the ondless jokes about old maids will, the promoters of the scheme hope, be eliminated by the certainty of a fixed income when working days are over.

ncome when working days are over.

It is to be doubted whether there are It is to be doubted whether there are now many mercenary marriages among working women. So far as money is concerned the capable woman seldom gains by marrying into her own class. Indeed, it is to be feared that too many women prefer the comfort and independence to be gained by their own exertions to the dependence which usually follows marriage. This is good in so far as it prevents loveless unions. On the other hand it is not likely: that the hope of a small income would

in so far as it prevents loveless unions. On the other hand it is not likely that the hope of a small income would deter an ambitious, selfish woman from marrying the rich man who asked her to share his fortune.

With regard to the second aim, "to prevent the worry of penniless spinsters," it would be interesting to know what proportion of old maids actually suffer from poverty. There is little doubt that the lives of many single women are full enough of anxiety about the fature. It is not so certain that their forebodings are realized. By enquiry at the Aged Women's Home in this city it was ascertained that only two of the immates were single women. The remaining nineteen have been married. One, at least, of the two old ladies entered the home, not from fear of want, but because she could receive there care and attention. Is the case of Victoria in this matter exceptional? Or does a kind Providence remove from a hard world the old ladies who have no ties to bind them to it before they become a burden on the community? May it not be that the world is not so cruel after all, and that there are nooks which even single old ladies can fill and that lives of cheerful usefulness can be continued long after the limit of fifty has been reached. continued long has been reached.

As for the jokes about old maids, the time has gone by long before half a century of single life has been passed when they wound, and if it had not, it is hard to tell how the possession of an annuity would rob the words of the cruel and thoughtless of their sting. There is room in the world now as there always has been for the work of women, whether married or single, and faithful work will bring its own reward. Yet no one, man or woman, married or single, is wise who does not prepare for the future. Thrift and foresight are not in these days looked upon with as much favor as their sister handmaid, industry. And perhaps, little as they may like to acknowledge it, young women workers need to be specially reminded of the value of the clear-sighted if somewhat hard-featured pair.

A little fellow of three or four was busy the other evening with a pair of seissors trimming a tiny plot of grass outside the gate. The spot was, perhaps, a foot square, but it was thick and even and beautifully green. Whether this was due to the little gardener or whether he had been attracted. Whether this was due to the fitte gard dener or whether he had been attract-ed by the greenness, was not learned But it served to attract the attention But it served to attract the attention of the passer by to the need of such work by stronger and more experienced hands on the ground between the boulevard and the garden fences of many of the residents along the street. While the boulevards sown this spring are in splendid order, this narrow strip is in many places bearing a crop of dandelions, bindweed, wild barley, and many other weeds, whose seeds will in a few weeks ruin the grass and give the gardeners trouble. It is surely not too much to expect that the occupants of houses will co-operate with the city to the extent of carling for the grass at their own gates. There is so much that could be done if only people cared enough about the appearance of the city to take the trouble. Such little things as this are among those that would soon be remedied by the organization of public-spirited women, or better still, children, who are imbued with a love of their city. These are among the trifles which go to make perfection, which the masculine eye 'ls apt to overlook. passer by to the need of such

The name Deerfield brings to mind one of those terrible border raids which are the chief blot on the administration of the old regime in Canministration of the old regime in Can-ada. There are few who suspect that in the north of Massachusetts is to be found a community, peopled, perhaps, by the descendants of those captives who were dragged captive to Canada or slaughtered by Hertel de Rouville and his savage band. Yet this is quite possible. At all events, the old name remains, and is likely to acquire a new fame.

fame.

Most people have heard of the in-

vestigation into rural conditions in the United States conducted by a commission appointed by ex-President Roosevelt. There were others than the strenuous president who felt the need for the regeneration of the farming communities, at lenst of the eastern states. Among them was a school master whose name is Frank L. Boyden. When Mr. Boyden took charge of the High School at Deerfield there were but lifteen pupils. He made athleties a part of the work of the school. Every boy, and apparently, every girl, was obliged to take part in the school games. An hour was set apart for practice, and a uniform was donned at each. The boys became famous baseball players, winning nine out of twelve in High School matches. But the playing was not left to a few. Every boy was trained. More than that, the spirit of fair play and admiration for true sport was so inculcated that no advantage was ever taken of opposing teams.

The girls were taught gymnastics, basket ball and folk dances. The academy became popular, and now numbers five times the number of pupils it did when Mr. Boyden took charge. The young people worked as hard at their studies as at their sports, and the school became so popular with the people that its income steadily increased.

Nor is this all. The academy bacame the centre of the social life of vestigation into rural conditions in the United States conducted by a com-

it. In Decrifield the problem of ath-leticism as been solved. Here every-one is trained, and the victory of the team is shared by each pupil.

WEEK AUGUST 2nd. ELLIOTT, FARRINS and ELLIOTT

"After the dining-hall, the kitchen was most characteristic of what we know as Dutch, and it lingers like a plottuse." know as Dutch, and it lingers like a pleture.

"It was white-tiled and spotless. There were blue plates and cups, and there was copper, and the old copper shone and the fire burned in a Dutch oven, and in all this beauty stood the maid in her short skirt and red blouse polished for dear life.

"My hostess gave her little laugh, her lively eyes twinkling merrily.

"Maritje,' she said—all the maids all over Europe appeared to be named Marla—why do you polish? Is not the kettle spotless?"

"'Ja, Mevrow, ja,' answered Maria, also smiling; 'but today, you know, is Thursday."

WOMAN'S WORK

The Woman's Auxiliary of the Y. M. C. A. invite all members to share their piente at the Gorge Park this afternoon. These energetic ladles have some plans to make and hope to combine business with pleasure. Their entertainment will not be the less delightful on that account.

The Vision Days

We dwelt within a house of pearl an those old days of wondering joy—
You were the golden wide-eyed girl, was the silent lonely boy.

ular with the people that its income steadily increased.

Nor is this all. The academy became the centre of the social life of the town. The sympathy of the parents was enlisted, and nearly all parties were held on Friday evenings. So far from discouraging these, the teachers have allowed the young people a special recess for making arrangements for them. Three new teachers have been engaged, each of whom, it would appear, shares in the enthusiasm of his chief.

This is the way one man has brought about a reform in rural conditions. It is safe to say that many of his pupils will remain in their own district, and that those who leave will not only carry with them happy remembrances of their old school, but will do it credit. In Decrifeld the problem of athleticular To what far country have they passe To what far country have they passed Those things we dramed, so sweet and strange— Far sea-caught morns that might not last, Fresh winds of dawning, doomed to change?

I wove your tresses with the wind And filled your eyes with sunrise gleam A voiceless longing made me blind (For children dream as poets dream.

Where all the air was living gold ut to the far horizon's haze, Toward which the vision-ships of old Bore off our fading vision-days.

I think you sometimes now must go n secret to that distant place Where still they bloom—today their glow glow Has tender in your lifted face. —Arthur Davison Fleke, in the August Scribner (Fiction number.)

We have heard much of the cleaniness of the Dutch houses, and perhaps most of us have believed that the stories we read in childhood were a little exaggerated, or that if not, times had changed in the land of windmills. That this is not the case, Eva Madden shows in a delightful article on a visit to Holland in the current number of Harper's Bazar. This is how she describes the dining room and kitchen of one of the houses she visited: The Blossoming of The Devil.

"Irish" Balley, one time "Devil" of the Courier office, came in on Wed-nesday from Vancouver to visit his parents, Mr. and Mrs. E. R. Balley. "Lish" is now a full-fledged panter.— Quesnel Courier.

Editorial Suspicions.

kitchen of one of the houses she visited:

"The house of this lively old lady stood on the river and had its old warehouse beneath it. Its dining-room was what we call a 'Dutch' one, and, seated at its polished round table, my feet on a stool, my chair a high-back, carved one, my companions Dutch ladles, my food cheese, bread, delicious butter (the Dutch take holiday, by the way, on the day of the first appearance of butter after the cows have eaten new grass) and sausages, my eye rejoiced in the vision of the celling, with its black oak carved rafters, at the Delft blue of the walls, with their rare Dutch decoration, at the black oak wainrcoting, with its lovely row of Delft plates bounding the four ancient walls, at the heavy oak doors, the sideboard, the cups in a cupboard, the polished floor all lovely in the many-hued light of the painted glass window at its end for lighting. J. B. Daniell, editor of this publica-tion, leaves for the Coast today on a business trip, and we do not expect us to return a bachelor.—Cariboo Ob-

Our Name Behind Is Worth a Good Deal To You

ROWAN CONFIDENT

Nanaimo Runner Says He Expects to Defeat Marsh at Fifteen Miles

Alex. Rowan, the Nanaimo runner, who is to meet John D. Marsh at the Royal Athletic Park on Tuesday evening came down from the Coal City yesterday and in the afternoon went up to the grounds where the race is to be run and clipped off over ten miles in remarkably fast time.

The Coal City idol has been doing a large amount of road work up the island and is in perfect condition for the big race next week. Rowan said yesterday that he never felt better in his life than at the present time and that he would surely take the measure of the fast Winnipegger when they face the starter on the local track.

When the two met a short time ago in the twelve mile race Marsh won by three yards and for the entire race it looked as though it would be neck and neck finish, the Easterner winning ont by a small margin in the sprint. Alex. Rowan, the Nanaimo runner,

Says the Nanaimo athlete: "It it had been a fifteen mile race instead of a shorter one I am almost sure I could have beated Marsh. When we ran the full distance marathon in Tacoma in July, I led for eighteen miles and was forced to drop back after that owing to the poor condition of my feet. You can say for me that I feel very confident of taking Marsh's measure when we meet again, as I have him pretty well sized up by now. Whether I will set the pace or not in this race is a matter which I cannot take up at present." Manager Wattellet has received word from Marsh who is at present in Aberdeen. The holder of the world's marathon record will be unable to come to the city for a fewdays as he is about to make the trip to Vancouver, to see about arranging a fifteen mile race with Shrubb. Marsh is the only man living that has ever defeated Shrubb at the fifteen mile distance and he claims that Shrubb is afraid to meet him again at tais distance, otherwise the little Englishman; would not accept the offer made by Con Jones for the race. Wattellet-is getting things ready for the big race which will be run at the SWEENEY M'CONNELL NINE TO PLAY ROSS TEAM

The Sweeney-McConnell ine made up of players from two well known local families are out with a challenge to the Dixi Ross ball tossers and it has been definitely settled that a game between these two teams will be played some evening next week

week,
The Dixi Ross players have already played several games and have shown pretty good form and a match between them and the Sweeney-Mc-Connell families should prove very interesting.

conneil families should prove very interesting.

An attempt will be made to form a Merchants' baseball league in this city in the near future as there are several nines that would be sure to enter including Weller Bros., Sweeney-McConnell, F. R. Stewart, Wilson Bros., Dix Ross, and a Colonist nine. The Sweeney-McConnell line-up is as follows: Pitcher, Hum McConnell; catcher, F. Sweeney; 1st base, Joe Sweeney; 2nd base, Kasey Sweeney; 2rd base, Will Sweeney; S. S., Fred McConnell; left, Leo Sweeney; centre, C. V. McConnell; right, J. P. Sweeney.

The Victoria Lacrosse club will hold a practice at the Royal Athletic Park this evening. The locals are going to get busy now and get into shape to win from the Vancouver Maple Leafs on Aug. 21. It is the club's intention to get down to systematic practice on the defending end of the team.

GOLDWAY WINS DISTANCE EVENT

Two Riders Set Down for Rough Tactics—McBride Indefinitely

The feature of the card at the Oak Bay Track yesterday afternoon was the fourth race, at a mile, in which five good distance performers went to the post. Goldway, belonging to J. M. Shilling, proved to be the best, and won the race in one of the most spectacular finishes of the meeting. Listowel, the favorite, shot to the front right after the start and set a hot pace for half the distance, where Aristotle gradually overtook him and pleked up the pace. The two raced together on pretty even terms until straightened out for home, where Goldway, coming like a streak, gradually overhauled the leaders, and closing rosolutely got the verdict by a slight margin. Aristotle lasted a trifle longer than Listowel, and got the place. The mile was evidently too far for Listowel. In his cagerness to win the race, McBride, Listowel's rider, repeatedly struck Aristotle with his whip, when the horses were in close quarters, and in all likelihood this had some bearing on the result of the race. McBride was guilty of a most flagrant offence in striking Aristotle on the head with his whip, and the stewards took prompt action by suspending the rider indefinitely. McBride has been repeatedly warned to cease his rough tactles, for which he incurred suspension once before, but evidently he has paid little head to the warning. Now he is probably down for good, with little prospect of being allowed to ride at the Vancouver meeting.

Mike Hennessy furnished a good deal of excitement among the fair occupants of the stand when he loomed up dangerous turning for home in the third race, and the excitement remained at fever heat until everything was spoiled by Benvolio, which overhauled Mike Hennessy in the final drive and got the verdict. Mike, however, ran a clever race, and got the place, with Nasmerito third.

Otranto had the field in the opening race at his mercy the entire five furlongs. He had the foot of the party right after the start, and came home with his rider looking around. Mr. Hose was a good second, while Swift McNeill, which The feature of the card at the Oak Bay Track yesterday afternoon was the fourth race, at a mile, in which

part, and took second money. Cliff Rogers lasted long enough to get the

show. Jessupburn, the favorite, ran out on every turn, which lost him any share in the purse.

Miller's Daughter won the fifth race in the cusiest kind of fashion. She overtook Lord Rossington after six furlongs had been traversed, and came on to win by six lengths. Dr. White caught Lord Rossington in the last few jumps and got the place.

The closing race went to Burleigh, with Neille Rache second and Irish Mail third.

Lycurgus rode in fine form all after-

Mail third.

Lycurgus rode in fine form all afternoon. He rode three winners, one second and one third. Archibald rode two winners, while Brooks had to be satisfied with one winner.

CLASSY SHOW ATTRACTS

Pantages Theatre Presents Vaudeville Bill to Crowded Houses

It's really class that tells after all, and the Pantages dope sheet certainly shows a winning list of attractions this week, the natural result of which is a very large attendance. This is as it should be, for the excellency of the programme makes the price look like a big bargain. Elliott, Farrens, and Elliott, cfassical harpist and vocalists, in a concert of musical numbers chosen to delight all musicovers. Doranto, vaudeville's greatest Chinese musical comedian, in "A Glimpse of Chinatown," Wilbur and Ami, "the man with a hundred voices and his human dummy," the White Zolar queen of black art, pictured ballad, and the funniest moving picture subject ever exhibited, combine to the happy result.

TRACK ATHLETICS-RACING-GENERAL SPORT

ENTRIES FOR

Many Fast Athletes Will Compete for Vancouver Island Titles

TWO LOCAL ATHLETES ARE PROFESSIONALIZED

Can Not Compete Any More in Amateur Events of Any Kind

The local branch of the B. C. Amateur Union, held a meeting last evening at the Y. M. C. A. clubrooms, to wind up the affairs of the big island championship that is to take place at Oak Bay track on the coming Satur-

The meet is bound to be a big success as there are entries on file from the following local clubs: J. B. A. A., Y. M. C. A., Empress Athletic Club, Esquimalt Athletic Association, North Ward, Victoria West A. A.; besides there are entries from the Shearwater and several runners are to take part unattached.

Two local athletes were professionalized at the meeting last evening, and will probably never be allowed to compete in any baseball, football track athletics or in fact any kind of sport controlled by the amateur union. They are H. McIlimoyle and Gor'm Agnew, two well known local boys, who competed at Port Angeles on July 4 for eash prizes. The hand of the amateur law falls hard and heavy when it comes into action. The idea, however, is to set an example to their athletes who may attempt to run for money and compete in mandatur rose as well. who may attempt to run for money and compete in amateur races as well This the amateur union will positively

This the amateur union will positively not stand for, and must take action when an athlete has been found guilty. In the meet Saturday the most entries seem to be in the 880 yards, the one and five mile races; there are many good runners at the distances around Victoria, which accounts for the large number of starters. The complete entry list for the big meet is as follows:

The entries for the big athletic feast on the coming Saturday are as follows:

lows:

100 yards—Finch and Valo, Y. M. C.
A.; Winsby and Newmarch, J. B. A.
A.; Gerard,

Will Be Held at Vancouver This Month—Locals Will Compete

The championship swimming meet to decide the British Columbia titles will be held at Vancouver one week from the coming Saturday, according to the plans formulated at the meeting of the A. C. Amateur Swimming association held at Vancouver last evening.

Many of the local Y. M. C. A. swimmers who are present at camp at the Gorge will make the trip to the mainland and endeavor to bring home some of the championships. Prank Crompton, Vancouver Island's champion, is swimming in good form these days and stands a good chance of winning the provincial championship in some of the short distance races.

Capt. Kiddle, of the Victoria Swimming club, will also most likely make the trip, but at present it is hard to say just who is really eligible to compete. The local swimmers are holding swimming races at the Gorge every Friday evening, and the names of those who will contest at the mainland will be announced in a few days.

Entry blanks for the events can be had at the Victoria Sporting Goods company in a few days, as they have not been forwarded to this city as yet. They will, however, be down before Saturday of this week.

Following is the programme:

Fifty-yards race, 220-yards race, 830-yards race, life-saving contest (teams of 2), diving competition.

Juniors—100-yards race, relay race (each boy 50 yards), 100-yards ladies' race.

race,
Open—Blindfolded race, 100-yards
back race, 50-yards girls' race, 50-yards
boys' race (15 years and under).
Victoria, August 21—100-yards race,
410-yards race, 1 mile race, relay (each
man 50 yards).
Juniors—Fifty-yards race, 220-yards
race, life saving contest (teams of two),
ladies' 50-yards race.

At Pittsburg—Brooklyn 1-6-0; Pittsburg 9-6-2.
At Cincinnati—New York 7-11-3; Cincinnati 6-15-2. I. B. A. A. BALL TEAM

CHALLENGE VICTORIA NINE

The J. B. A. A. ball team are out with a challenge to the Victoria Baseball club for another series of ball games to take place as soon as possible. Since the Bays won from the Victoria team a few weeks ago they have been anxious to get another series of games

FOR SWIMMERS Athletic Dark. ISLAND WRESTLER AFTER PACIFIC COAST TITLE

Nanaimo, Aug. 3.—It is probable that Sandy Swanson, the local lightweight wrestler, will come to grips with Venables, the Seattle crack mat man, who at present holds the championship of the Pacific coast. Negotations are in progress now, and the date selected will be the night of Labor Day.

Venables has signified his willingness to meet Swanson on that date, or sooner if Swanson prefers it.

YOUNG GRIFFO SOUGHT BY AUSTRALASIANS

Would Pay Fare of Wonderful Fighter Back to Home Land

Chicago, Aug. 3.—Mayor Busse of this city is in receipt of a letter from Sydney, Australia, asking for the whereabouts of Young Griffo, the once great fighter. Australians have raised money for the fighter's return to Sydney, his native home and he will ed money for the fighter's return to Sydney, his native home and he will be gladly taken back. Passage money awaits the game fighter any time he wishes to return home and it is not expected that he will hesitate when he hears of the good news. Albert Griffiths (Young Griffo) was born in 1871 and received his early instruction in boxing in the same school with Bob Fitzsimmons. Griffo had about fifty fights in his native land before he left for America in 1893. His career in the States was about the most remarkable of any living fighter and he cleaned up all of the best in rapid succession. He met and defeated such clever men as George Dixon (colored), Kid Lavigne, Leeds, Weir, McKeever and Jack McAuliffe, who were shining stars in the purilistic limelight a few years ago.

But the Australian lacked common sense and was about the most brainless scrapper that ever donned a pair of boxing gloves; there were many fights that the fighter engaged in that he received but very little recompense from the managers or promoters of the bouts. It is told by many that Young Griffo would often engage in an encounter for the price of a glass of beer. What money he did manage to get hold of he spent freely and saved not a penny. The result is that he is at the present date little better than an ordinary hobo and can not be located to be informed that his friends want him back in his native country.

afternoon.

beauty.

A variety of native and exotic trees everywhere, formed a background against which flowers of many kinds

Divination by Daffodills. "When a Daffodill I see,
Hanging down his head t'wards me;
Guesse I may, what I must be:
Flist, I shall decline my head;
Secondly I shall be dead;
Lastly, safely buryed."

grouped themselves. The gold of the broom, the crimson of the climbing roses, the blue of the delphineums and the gleaming white and yellow of the great masses of Shasta daisles vied with one another in profusion and

beauty.

Platted or trailing over lattice or pergola, summer flowers, whose more transient beuaty of varying shades of purple contracted with the crimson of the geraniums and the pink of the later roses were the centre of admiring groups and hidden in a rocky dell was a pond with the fragrant beautiful water lily so rarely seen in Victoria.

toria.

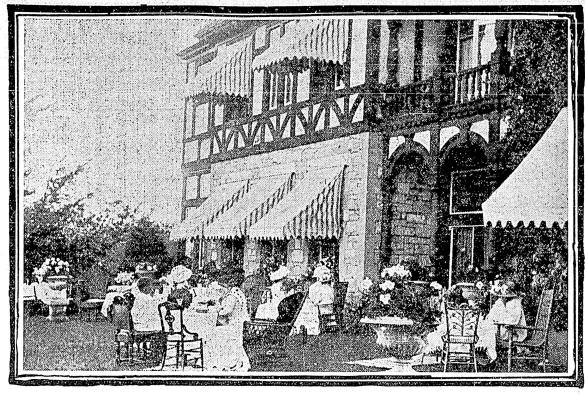

The groups of young ladies who sat

The groups of young ladies who sat around the tables or took part in the games added the touch of life that was wanting to the perfection of the scene upon which the older ladies looked with delight.

Mrs. Hasell and Mrs. Jenkinson welcomed the guests as they arrived. Tea was served on the terrace, which with

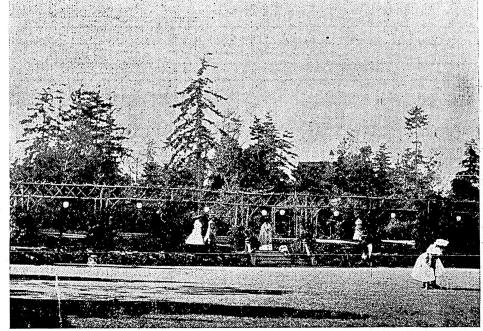

"Upon a lawne, than skyes more cleare Some ruffled Roses nestling were: And snuggling there, they seemed to lye As in a flowine numery: They beam flowers look of more fresh Quickned of late by Pearly showers."

1 Kings Daughters It would be hard to imagine anything more levely than the grounds of Mount Adelaide, where by the kindness of Mrs. Henry Croft, the King's Daughters held their fete yesterday Whether one looked from the terrace in front of the house with its covering of many colored foliage across the violet blue waters of the Straits to the snow crowned Olympics, or strolled about the grounds nothing was wanting that could de-ARION CLUB'S CONCERT light the eye.

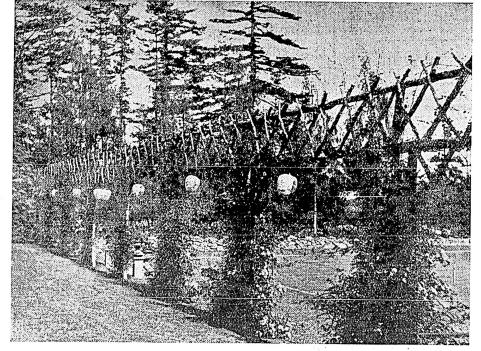

The Croquet Lawn, Where Many Found Amusement.

The Trellis Along the Croquet Lawn.

its dozens of dainty little tables seemed a little bit of Ranelagh with a much finer prospect lying before it than that famous resort enjoys.

The tea tables were provided with all, sorts of dainties by Mrs. Richard Jones, Mrs. Hugo Bevan, Mrs. Dickenson, Mrs. Hiscocks and Mrs. Hearne, assisted by Miss de Bois Greene and Miss Helmcken.

In a mysterious little booth Mrs. Ballantyne practised the art of palmistry, and told to all who visited her the best of fortunes.

The lovers of sweets found Miss Sorby, Miss Marvin, Miss Lovell, Miss Fell and Miss Morley ready to supply the most delicious of home-made candles in the daintiest of baskets.

The Ministering Circle, represented by Miss Elaine McMicking and Miss Bertha Fraser, offered ice cream to all, who passed their way, and Miss Heyland, with her sisters Miss Helen

To Cedars.

"If 'mongst my many Foems, I can see One, onely, worthy to be washt by thee: I live for ever; let the rest all lye in dennes of Darkness, or condemn'd to die."

and Miss Beatrice, directed the games of clock golf. Croquet games, too, were engaged in by players during the later afternoon.

To the unitiated who entered Mrs. McMicking's Art Gallary much amusement was afforded, and even those old in such devices could not but wonder at the ingenuity displayed.

But yet more enjoyable was the night when moonlight and music and the fragrance of flowers combined to fill every sense with delight, and to make the midsummer fete of the King's Daughters a very pleasant memory.

ARION CLUB CONCERT

"Ifaire was the Dawne; and but e'ne now the skles snew'd like to Creame, enspir'd with strawberries; But on a sudden, all was chang'd and manifer that smil'd in that first sweet complication. Then thunder-claps and lightning did was the exhibit of the paintings of Mr. conspire conspire
To tear the world, or set it all on fire.
What trust to things below, whenas we we spent the past five months in Victoria

see,
As Men, the Heavens have their Hypocrisic."

—Herrick.

The Arion concert in the evening was very successful, in spite of the rather high wind which seriously interfered with the singers. The several solos and choruses were very well as one or summers were served on the terrace. The grounds looked very beautiful in the dim light of hundreds of Chinese lanterns, and when towards the close, the moonlight flooded the scene, the effect was lovely indeed. The attendance in the evening was large, although, because of the spacious character of the grounds, and the fact that people were going and coming constantly, there was at no time a crowd that was inconveniently large. The prettiest spot in the garden was inquestionably the rose pergola, with its illuminated fountain. The expressions of the hundreds who ware are seedls in portraying that transfers of the hundreds was ware as seedls in portraying that transfers of the hundreds was ware as seedls in portraying that transfers of the hundreds was ware as seedls in portraying that transfers of the hundreds was ware as seedls in portraying that transfers of the hundreds who ware are seedls in portraying that transfers of the hundreds who ware are seedls in portraying that transfers of the hundreds who ware are seedls in portraying that transfers of the proposition of the seed with many canvases, the artistic merit of which were the subject of many encominums. Portraits there ever several as well as one or many encominums. Portraits there ever several as well as one or many encominums. Portraits there ever several as well as one or many encominums. Portraits the artistic merit of which were subject of many encominums. Portraits the artistic merit of which were subject of the artistic merit of whic inquestionably the rose pergola, with its filuminated fountain. The expressions of the hundreds who were present in the evening were an eloquent testimony to the beauty of the scene, and the graciousness of Mrs. Croft in lending the grounds to the Daughters of Pity.

J. Carrier, an English artist, who has spent the past five months in Victoria.

The walls of the billiard room were covered with many canvases, the artistic merit of which were the subject of many encomiums. Portraits there were several as well as one or two paintings of a symbolical character, but it was the landscapes and marine views which excited the greatest interest. Mr. Carrier has imbibed and grasped

cularly striking. Another little gem showed a moss covered maple in the sunlight. The glint of the sunlight upon the moss was highly realistic. Several views in the neighborhood of the golf links—headlands covered with yellow gorse and wild flowers, were as dainty as they were charming.

A picture of shipping in Vancouver harbor is one of the very best in the collection.

Mr. Carrier has been painting at the residence of Mr. F. B. Pemberton, Mt. Joy, Foul Bay road, and at the studio of Miss Earl in Fort street.

OLD COUNTRY SPORT

++++++++++

With the fourth test match resulting in a draw and Australia one up on the rubber and only one match rewhile others are of bits of Jarvis inlet and the country around Vancouver. All are remarkably true to life. The blue and violet peculiar to the British Columbia atmosphere he has caught to a nicety, while in his marine views he excells in portraying that transparency of depth and color which is the despair of so many painters of great ability.

In the exhibit there were two views of Jarvis inlet, one of the slate quarries and another of the inlet in the depth of, white, which were parti
while others are of bits of Jarvis inlet, one of the slate quarries and another of the inlet in the depth of, white, which were parti
the rubber and only one match reasured as surely so date and another of players in form—regardless of age—is necessary. There are those in responsible positions devoutly hoping that transparency of depth and color which is the despair of so many painters of great ability.

At a largely attended meeting of the Jockey Club, held at Newmarket, two many changes will not be made. English bowling is not at fault, but, the batting, as we have repeatedly pointed out—even after the one victory at Birmingham—is feeble.

There is no need to set down English rowing as a thing of the past, or the wide of players in form—regardless of age—is necessary. There are those in responsible positions devoutly hoping that too many changes will not be made. English bowling is not at fault, but, the batting, as we have repeatedly pointed out—even after the one victory at Birmingham—is feeble.

There is no need to set down English rowing as a thing of the necessity for changing is not at fault, but, the batting, as we have repeatedly pointed out—even after the shall run three times in England between the country and the ground will be accessed.

There is no need to set down English rowing as a thing of the necessity for changing is not at fault, but, the batting, as we have repeatedly pointed out—even after the fault, but, the batting, as we have repeatedly pointed out—even after the fault, but, the batting, as we have

ants to national farne. A third denounces the old brigade and advocates youth. And so on. Every cricketer who has achieved any distinction is at once singled out for selection. It is Allan Steel who has again rushed into print with a plea to encourage youth. Too old at forty is the insane cry, and too old at thirty seems to be the monstrous motto of the old Cantab. It has been generally understood that three years of experience were required to make a first-class county cricketer, and probably a year or two more is needed for the development in nerve and skill of the imperial player. Commenting on Mr. Steel's remarks the Athletic News says: "England has to meet a wily foe led by an accomplished general who knows every strategical device. Noble never makes a move or changes a man without a definite object. What would eleven youths do against him? They would assuredly be out-generalled. A blend of experienced cricketers without fear of players in form—regardless of age—is necessary. There are those in responsible positions devoutly hoping that too many changes will not be made. English bowling is not at fault, but, the batting as we have repeatedly pointed out—even after the one victory at Birmingham—is feeble."

majority of the defeated eleven another stoutly contends for new aspirants to national fame. A third denounces the old brigade and advocates youth. And so on. Every cricketer who has achieved any distinction is at once singled out for selection. It is an achieved any distinction is at once singled out for selection. It is not old at forty is the insane cry, and too old at forty is the insane cry, and too old at forty is the insane cry, and too old at thirty seems to be the monstrous motto of the old Cantab. It three years of experience were required to make a first-class county cricketer, and probably a year or two more three grand changed their stroke on first class county cricketer, and probably a year or two more is needed for the development in nerve and skill of the imperial player. Commenting on Mr. Steel's remarks the Athletic News says: "England has to meet a wily foe led by an accomment in one to a will yie led by an accomment in the comment in the same order in the Summer Eights, a few weeks before at Oxford and comment in the same order in the Summer Eights, a few weeks before at Oxford and the same order, and Roui Orban rowed in the same order in the Summer Eights, a few weeks before at Oxford and comment in the same order in the Summer Eights,

American-bred horses transported to England. The latter go to stay, but French horses are sent over to win their races, and immediately go back again. It will certainly put the bar up against many crossing the channel especially for such races as the Cezarewith, Cambridgeshire, Ascot Stakes, etc., races which are always looked upon with keennes by French stables. The new rule will not be hailed with delight in France, and possibly may lead to retallation in some way.

The inter-university matches for the strength of the Crystal Palace, the scene of many a cup tie final, is trembling in the balance.

A View of the Driveway.

The inter-university matches for the The inter-university matches for the year were brought to a close with the shooting for the Chancellor Plate at Bisley. It has been a season memorable for the extraordinary run of successes of the dark blues, who finish up the season with a record number of victorless—15 to 7—a margin of eight. The previous best was Cambridge, 13 to 7, in the season 1903-4.

The fate of the Crystal Palace, the scene of many a cup tie final, is trembling in the balance. An application has been made in the Chancery court for the compulsory winding up of the company. The judge consented, by request, to allow the application to stand over until the last petition day of the sittings, on the distinct understanding that if there were not then something definite to show, the rights of the petitioners would be met.

Ad. Welgrast, who recently out-

The visit of the American polo players to England has opened up a new vista in polo prospects across the water, and there is likely to be in the near future several of the best known teams improving their tactics by taking a leaf out of the American book. Three things have become apparent, the most conspicuous being the loose order adopted by the visitors, which had previously been considered undesirable and described as scrambling. The cigar-headed stick, too, is much stiffer in the shaft than those more

Win for "White Heather"

INSPECTOR SPARKLIN

United States Immigration Department "Investigates" Buffalo Case of Inhumanity to Victim of Accident Washington, Aug. 3 .- In defending

Cowes, Aug. 3.—The eleven starters in the King's cup competition today sailed over a course of 47 miles; all carried their jib topsails and jack-yards. White Heather got away to a fine lead, but while passing Ryde, Emperor William's Meteor, the scratch boat took command temporarily. White Heather soon overhauled her and came in a winner, well ahead of all handicap allowances.

At Sotheby's, a lock of hair of the Duke of Wellington, and his signature to a document, were sold for \$7.40. the immigration service at Buffalo,

injured man was detained by the immigration authorities for five hours after arrival at the Buffalo wharf, but Mr. Keefe, as the result of an investigation, declares that the man was detained only three hours. "The blame for the happening of this regrettable incident by no means rests upon Inspector Sparklin," declares Mr. Keefe, "for had Doctor Snyder devoted more of his energies to a reasonable examination of the situation and his intentions and less to profanely expressing his opinion of the inspector and the laws, and also had he taken the alien aboard the boat in a proper and regular way, all trouble would in all probability have been obviated."

Rev. Dr. Kinnear, ex-M. P. for Donegal, and one of the oldest and bestknown members of the General Assembly of the Irish Presbyterian church, died at Letterkenny, County

Tango Maru Reached Quarantine Last Night and Will Dock This Morning

OCEANO PROCEEDS TO VANCOUVER | ‡

Mr. Kuroda of Japanese Mining Company Among Arrivals on N. Y. K. Vessel

The steamer Tango Maru, of the Nippon Yusen kaisha, reached William Head quarantine station last night together with the delayed Bank liner Oceano, which proceeded to Vancouver without calling here after passing quarantine. The Japanese liner, which left Yokohama July 21 encountered fog for the first seven days and smooth weather during the remainder of the trip. She has a fair complement of passengers, of whom one saloon and eight steerage are to be landed nere. The saloon passenger is Mr. Kuroda, of the Awaya-Ikeda Mining Company, which is developing the rich Japanese mine on Queen Charlotte islands. News of the disastrous fire at Osaka was given the Japanese on board on arrival at William Head, and created consternation, many having friends and relatives in the destroyed city. The Tango Maru will land 138 tons of general merchandise at the outer wharf, and will proceed to Seattle this afternoon.

The Oceano, Capt. Davis, left Yokohama four days prior to the Japanese steamer, and made a protracted voyage. She was expected on Sunday Capt, Jones, the Vancouver pilot, who was awaiting the steamer here, was placed on board in Royal Roads, and the Oceano went direct to the mainland port to discharge her cargo.

Strathyre Chartered

WASHINGTON, Aug. 3.—The Senate has agreed to take a vote on the tariff conference report at six o'clock Thurs-

INVESTIGATING RECENT COLLISION

Officers of Endeavor and Iroquois Tell of Accident Off Race Rocks

At the investigation concerning the collision between the steamer Iroquois and schooner Endeavor held by the United States steamship inspectors at Seattle Capt. McAlpine of the Iroquois who was on watch when the vessels struck a short distance south of Marrowstone point at 2:35 a.m., told of entering a dense bank of fog whereupon he gave the slow bell. He picked up several fog signals and heard the Endeavor's horn only twice before the collision occurred. He stated that the Iroquois was making only between four and five miles an hour.

stated that the Iroquois was making only between four and five miles an hour.

First Officer Harris Pickels, of the steamer, testified that the schooner's sails seemed to be drawing heavily after the collision, but Capt, W. Me-Alep, of the Endeavor, replied that they would likely belly even with only a light wind when his vessel's momentum was stopped by the steamer. It was admitted that the schooner had all her canvas set, but Capt. McAllep testified that only the fore sail and spanker were drawing. In his evidence he said that he was called on deck as soon as the fog fell at 2:16 a. m., when he retired at midnight it having been clear. The schooner was headed southeast, one-half south, on starboard tack, attempting to make Ballard. At 11 p. m. he passed Point Wilson and Admiralty head at midnight. The tide was against the schooner and for an hour he did not alter the bearings off Point Wilson. Soon after he went on deck Capt. McAllep ordered the fog horn sounded more frequently. When she was struck on the port bow the schooner was holded more frequently. When she was struck on the port bow the schooner was shout in the middle of the Soxad south of Marrowstone point.

The steamer Whatcom passed, blowing her fog signal. Capt. McAllep said he thought the Iroquois was steaming faster than testified by Capt. McAllep. MacAllep. Mate Wilke, of the Endeavor was sailing faster than testified by Capt. McAllep. Mate Wilke, of the Endeavor, who was on watch at the time of the accident, corroborated his captain in the more important details. He said it the said it the sort of the south the said it the sort of the south at the sort of the south American coast. The Loudon Hill sailed from the sound and the sailed the said it the said it the said it the said it the sort of the south at the said it the sort of the south at the said it the sort of the south at the said it the said it the said it the said it the sort of the south at the sort of the south at the said it the sort of the south at the sort of the south at the sort

was about in the middle of the Sould south of Marrowstone point.

The steamer Whatcom passed, blowing her fog signal. Capt. McAllep said he thought the Iroquois was steaming faster than testified by Capt. McAllepine, while Mate Pickels was of the opinion that the Endeavor was sailing faster than testified by Capt. McAllepine, the more important details. He said it was dead calm when he went on deck at midnight, after which a light breeze, almost aft, sprung up.

Other witnesses submitted testimony along the same lines as did the two captains. The inspectors took the matter under consideration and additional evidence may be taken before a decision is rendered.

GOLDEN GATE UNDERWRITERS LOSSES

Practically No Salvage Possible at Winnebago Wreck—Losses of the Year

Capt. Pillsbury, of the board of underwriters, and Capt. Turner, of the Fireman's Fund Insurance company, returned to day from the wreck of the steamer Winnebago at Point Arena, and state that there is practically no possibility of saving any portion of the vessel.

vessell.

The hull of the Winnebago was insured for \$100,000, of which amount \$70,000 was placed in London and the remainder here. The cargo of lumber, valued at between \$15,000 and \$15,000, was covered by insurance on the coast.

San Francisco underwriters have suffered very heavily by marine losses this year. The marine premiums for the entire year 1909 amount to but \$1,250,000, and with only seven months of the year gone, the losses already to the vessel before she is again in toministon. It is thought that her machinery will have to be readjusted

IS CONSIDERABLE

Over One Hundred Plates to Be Re-moved From the Norwegian Freighter

When the Norweglan steamer Eir was placed in drydock at Quarter-master Harbor, she was found to have master Harbor, she was found to have sustained serious damage as a result of her stranding on the bar at the en-trance to Grays Harbor. Her bottom is damaged its entire length, and it is estimated that more than 100 plates will have to be removed. Although no examination of her hold was made yesterday, it is evident that she has also sustained some broken frames

also sustained some broken frames and other damage.

Beginning about 60 feet from the steamer's stern and extending toward her bow for a distance of 160 feet, plates at intervals of her entire length show that she bumped over. The survey will be concluded today, and bids for her repairs will be advertised for several firms on the Sound being among the prospective bidders.

The survey of the steamer is being conducted by Lloyds' surveyor, Capt. James Fowler; Capt. S. B. Gibbs, representing the San Francisco board of marine underwriters, and Frank Walker, representing her owners.

Machinery May Bo Damaged

The repairs necessary will be ex-

as a result of the strain, and it is possible today's inspection will disclose extensive damage to her interior.

The Eir, under charter to W. R. Grace & Co., and with part cargo of flour and lumber for Panama and West Coast ports, grounded as she was leaving Grays Harbor for San Francisco. She re-fried to the Sound and after discharging her lumber at Port Blakeley came to Tacoma to discharge her flour cargo, a part of which was damaged by water. She then discharged her coal into the bunkers of the Norwegian steamer Hornelen, also under charter to Grace & Co. for the West Coast. The Hornelen loaded the cargo of the Eir and additional freight at Tacoma.

DEATHS DURING

DEATHS DURING

SCHOONER'S VOYAGE

Lyman D. Foster Returns From Val-paraiso With Story of Mis-Fortune

Completing a passage from Valpar-also, Chile, In sixty-two days, the schooner Lyman D. Foster, Capt. Dan Killman, has recorded a round trip voyage to the west coast of South America replete with misfortunes. The America replete with misfortunes. The loss at sea of the second mate and the death from natural causes of a seaman were incidents of the voyage. Upon arrival at Valparaiso with a cargo of Puget Sound lumber, Capt. Killman states there were but two of his crew of eight seamen able to attend to their duties on deck.

The drowning of J. J. Brennan, second mate, occurred off Cape Flattery, January 26, five hours after the schooner, had been dropped by the tug.

YouAreTheJury

Vancouver Island is an Empire in itself in all but population. It is wonderfully endowed in natural resource, climate, timber, minerals, fish, fruit and farming capabilities.

Its Coast Line penetrates it so deeply in so many places, that its capacious and sheltered water-ways contribute to the solution of the transportation problem.

The greater the Railway Mileage of the Island becomes, and the larger the number of prosperous towns and cities that develop on the lisland, the more assured is Victoria's position in trade and commerce. It looks as if Victoria, the Gateway City, the Provincial Capital, and par excellence the Residential City of the North Pacific Coast, must duly become a great Commercial City as well.

The signs multiply that Esquimait's near future will eclipse its past as a Naval Point, that Electric Railways will ramify the Southern part of the treasure island from a Victoria centre, that new railways to the North and West parts' of the Island will radiate from here.

The great natural resources of the Island are attracting Contact.

here.
The great natural resources of the Island are attracting Capital, and Capital employs Labor. Industries mean pay-rolls, and pay-rolls

and Capital employs bases. And a capital employed a spell prosperity. With demand for farming lands, for fruit lands, for suburban property, for inside residence property, for business property, for warehouse property, for manufacturing sites, for water-frontage steadily increasing and bound to increase rapidly as settlement of the Island and industrial development proceeds, the price of realty must

Island and industrial development proceeds, the price of realty must advance.

Victoria prices for the most part are har below those obtaining in other cities of like population and with far fewer potentialities.

Money put into the Bank is safe, but it grows very slowly. Money put into Mining and Speculative Stocks is more likely to shrink than to grow, but money put into Victoria and suburban property at current prices is sure to grow rapid ly.

We do not say these things because we live in Victoria and deal in Real Estate, but we live in Victoria and deal in Real Estate because we believe these things.

Now, Reader, You are the Jury.

Isn't one wise to buy Victoria Realty Now?

Part of their duty will consist in maintaining comduty will consist in maintaining communication in the North Sea with the German cruiser Zietnen, which is engaged in protecting the German fishing industry in British waters, and which has frequently been seen at British East Coast ports.

The trawlers are also to report what are termed as "items and objects of interest."

Interest."

It is interesting to note that as a result of the successful experimental mine sweeping operations carried out by the trawlers purchased by the British admiralty, a number of light-drafted warships and torpedo-boat destroyers have now been fitted with specially-constructed mine-sweeping mear

Mauretania Docks

The Cunard liner Mauretania arrived yesterday at New York from Liverpool with a total of 1,308 passengers, of which 408 were first class.

Salvage Is Small

Following the success which has attended the various experiments of the small fleet of modern steam trawlers acquired some time ago by the British admiralty from Grimsby, Fleetwood, and North Shields, to be fitted as auxiliaries to the navy, in which capacity they are employed to sweep suspected water for sunken mines, it is stated that the matter is now also receiving the attention of the German naval authorities, who have purchased two trawlers belonging to the Cuxhaven Steam Fisheries Co.

There have been equipped with

COMMERCIAL AND FINANCIAL

LOCAL PRODUCE

Past Week Has Been Quiet One -Potatoes Are Some Lower in Price

Few changes were recorded in the local produce market during the past week, and in fact with the exception of one or two products the market has been remarkably quiet and dull. The increased arrivals of new potatoes have affected prices somewhat. The crop this year is said to be a large one and of good quality. A shipment was recently received from Ashcroft, while local grown potatoes are coming in local grown potatoes are coming in well. Prices have dropped to between \$1.50 and \$1.75 per sack, and it is pre-dicted that the price will still further decline.

sl. 30 and \$1.15 per sack, and it is predecine decline.

In the vegetable line the only new arrival during the week has been local grown green corn, which arrived on the market yesterday in limited quantity, and is selling at 50c, per dozen. All other vegetables are unchanged from a week ago. Dairy products hold at the recent advance, and are very scarce, particularly creamery butter. The local creamerles are busy turning out icecream, and their butter production has fallen off. The island creamerles are also behind the demand, which continues remarkably keen.

Fruit is selling at last week's prices. Raspberrles and Loganberries are practically off the market, and other small fruits are also growing scarcer. In the flour, mill stuffs, fish, meat and poultry lines prices are unchanged.

New York, Aug. 3.—The stock market demonstrated its force in overcoming obstacles again today, and although those obstacles proved more effectual in their obstruction than for several days past, the chief is the pressure of stocks on the markets to realize profits accrued. The very high altitude at which prices stand invites the securing of profits. The situation constitutes what is called the weak technical position of the markets to the securing of profits. The situation constitutes what is called the weak technical position of the market. Union Pacific and both the United States steel stocks sold again at new high records today. An important pertion of the realizing sales which the market had to absorb today came from London. The market there resumed operations after a three days closed interval, during which some of the most striking advances in prices have been established here.

The market had become quite generally reactionary during the midday session, and it needed the force of example of a concerted advance of Union Pacific and United States steel stock to reassure sentiment and bring about a steadier tone.

News received a uniformly favorable interpretation. Much was made in this way of the grain crop advices. Anxiety regarding the effect of black rust in the spring wheat region seemed to be allayed and heavy receipts of wheat also had a cheering effect. News of showers in the corn belt was greeted as assurance of ideal growing weather for that crop, and this was of influence in sustaining prices.

An advance in the price of copper metal in London corrected a weak point in the situation, and brought the copper industrials into line with the upward movement of prices.

The large order placed by the Pennsylvania for new freight cars helped to stimulate the car equipment company stocks. The return of large amounts of stock, which have been borrowed for delivery, wur reported from the stock exchange, revealing the reduction of the short interest by the buying to cover, which has accompanied the rise in p Meat and Poultry. day.

Bonds were irregular. Total sales
par value \$7,200,000. United States
fours registered declined 1-4 per cent.

	CHICAGO GRAIN LETTER
	apparent t
	(By F. W. Stevenson & Co.)
	Chicago, Aug. 3 Wheat: Early firmness
	Chicago, Aug. 3.—Wheat: Early firmness was the result of a better Liverpool cable,
ı	light northwest receipts and appearance of
	wet weather over the northwest. But the
	rains in that quarter were followed by
	scorehing winds, as the trade anticipated
	(because of high temperatures reported late
	yesterday) favorable conditions for the spring wheat states. There was not a ser- lous claim from any section in regard to
	spring wheat states. There was not a ser-
	lous claim from any section in regard to
	the spread of black rust. Messages even
	indicated that the hallstorms and other
	damage to the crop will prove unimportant.
	The trade again began talking of an enor-
	mous spring wheat harvest, of something
	like 250,600,000 bushels in the northwest.
	There is no but leadership at present no
١.	prospect of serious black rust damage, plenty of talk of an early movement for

ANTI-RELIGIOUS ACTIVITY

Leads to Riotous Scenes in Portugal— The Free Thinkers Present Petition.

Lisbon, Aug. 3.-Free thinkers from all political parts in Portugal represented by a Liberal committee today presented to the courts a petition for the suppression of the religious orders in Portugal, and the abrogation of the existing laws against freedom of conscience. This step was the outcome of a meeting held yesterday. The committee was accompanied to the House of Parliament by an immense crowd and some wild sceys ensued.

Among other things the petitioners

Advertise in THE COLONIST

asked the abrogation of the recent law permitting religious associations to acquire land property, a procedure which, up to the present time had been illegal. Senor Camacho moved the consideration of the subject, and when the motion was voted down the galleries broke out in protestation. There was considerable violence on the floor of the House. The deputies engaged in a struggle in which desks and chairs were overturned and the chamber had to be cleared twice while tumult was continued in the streets tumult was continued in the streets without serious results.

PARIS, Aug. 3.—The United States embassy has been formally notified that France will send a squadron of three battleships to New York to represent the government at the Hudson-Fulton celebration next month.

🛨 Births, Marriages, Deaths 📫
